Blair and Clay---Republican Rally.

Hon. Frank P. Blair of Missouri, and Hon. Cassius M. Clay of Kentucky, will address the people this evening on the political issues of the day, at the Mechanics Institute Hall corner of Washington and Clark streets. The bare announcement that these two renowned champions of freedom and free labor are to address our citizens will call out an overflowing house.

Nothing to Speak of.

The "Grand Rally" of the Douglasites at West Market Hall last evening, consisted of 217 persons, including Republicans, who had strolled in, out of curiosity, from the 5th and 6th Wards. The principal speech of the evening was made by S. S. Hayes, Esq., and it seemed to be generally voted poor stuff.

The Galesburg Debate To-morrow.

The fifth public debate between Lincoln and Douglas comes off at Galesburg to-morrow. A special train will leave this city from the Central Depot to-morrow morning at six o'clock, reaching Galesburg at 1:25 P. M., returning the same night. Fare for the round trip six dollars.

In the Basket.

Raney, of the Peoria *Union*, exhibited documents on Monday entitling him to the emoluments of the Post office in that city, *vice* Peter Sweat, head off. The Red Revenger now counts seven prizes within as many days among the distributors of our mail matter. It is rumored that he has marked several others for his own, who may be discoveaed by their awkward way of carrying their heads. The Douglasites pretend to rejoice in the prospect of a reaction from the slaughter of these innocents. The exact quotient of rapture which they feel could perhaps not be ascertained without logarithms.

Great Meeting at Galena.

TRUMBULL ON THE STUMP.

German Meeting at the Court House---Great Excitement and Enthusiasm.

GALENA, Oct. 4, 1858.

On Saturday last, we had a good turn-out of the hardy Republicans of Jo Daviess, to listen to Trumbull. The demonstration on the occasion was one of the most impressive ever witnessed in the county. The delegations from the county were numerous and full, and the banners and devices borne by them of a striking and most appropriate character. The delegations from Hanover and Elizabeth deserve special mention, both as to numbers and enthusiasm; but as your readers must be tired of what is frequently described as occurring elsewhere, I omit any detailed account, further than this. When they halted before the De Soto House—where Trumbull was quartered—it was found to consist of about one hundred wagons, in addition to three hundred horsemen. Judge Trumbull was introduced to the crowd by Hon. E. B. Washburne, and was greeted, as was Washburne also, with round after round of cheers.

The speaking commenced on the east side of the river, near the old depot, at 2 o'clock. Senator Trumbull spoke to at least 5,000 men—a crowd twice as large, and infinitely more enthusiastic, than that which Douglas addressed at the time of his visit. The speech was a masterly exposition of the Little Giant's dodges and equivocations, and it warmed the heart of every right minded man who heard it. The speaker had no cause to be dissatisfied with the manner in which he and his able efforts were received. He was warmly applauded and cheered throughout, and his words carried conviction to many a doubter. Long shall we remember this day for its effects upon the politics of Jo Daviess.

In the evening, a German meeting, made up of 700 to 800 staunch German Republicans, was held in the Court House. An immense torch-light procession and a fine band led the way to the place of assembling, and long before F. Arnold commenced the room was densely packed.

Mr. Arnold made an eloquent and convincing appeal to those of his own nationality; and was succeeded by H. Kreismann, also of Chicago, who for a full hour swayed the audience at will, sometimes filling them with indignation, then convulsing them with laughter by the force and piquancy of his illustrations. He dwelt long upon the charge that the Douglas candidate for the State Senate, nominated expressly to catch German votes, was found on inquiry to be a member of a Know Nothing Lodge—Lodge No. 3, of this city. More than this, he proved it in such a way that Strockey, the imported, will not deny the impeachment! Mr. Kreismann's effort was a great success, and yesterday and today its visible effects were the talk of all political circles.

On the whole, we have had a refreshing season; and you may be sure that we are ready and shall continue to be ready for the impending contest. Put Jo Daviess down as sure for Lincoln, and for us publicly thank Trumbull, Arnold and Kreismann for contributing to the glorious result. Yours, MAC.

THE CITY.

Another fact for Advertisers.

The circulation of the WEEKLY PRESS AND TRIBUNE has gone up to *Twenty Thousand*, and the cry is "still they come." No paper in the whole West approaches this circulation.

THE REPUBLICAN CLUB OF THE EIGHTH WARD will hold two meetings this week, Wednesday, the 6th, at C. Folz's, corner Larrabee street and North Avenue, and Saturday the 9th, at Messrs. Schwarz & Drendel's, southeast corner of Chicago avenue and Payton streets. Commencement at 8 o'clock in the evening. The citizens of the ward are politely invited to participate.
ANTHONY FISCHER, Sec'y.

COURT OF COMMON PLEAS.—No suit of general interest or importance was up yesterday.

RECORDER'S COURT.—Nothing was done yesterday beyond arranging cases for the opening of the criminal business of the term.

RE-ARRESTED.—On a later and more circumstantial dispatch from the Boston Chief of Police, young Newcome was re-arrested by Marshal Rehm of this city, and will be sent back to Boston to answer to a charge of larceny of $1,200 from his employer.

☞ Mr. Byron E. Dye has opened a new furniture store on Main street, opposite the Union Hotel, where we were shown some of the most finished and most fashionable furniture that we have seen in a long time.—*Kansas City Journal.*

Mr. Dye was the city circulator of the Chicago *Tribune* for several years. He was a very energetic young man, and we think has been fortunate in his location of a western home, as Kansas City is a thriving go-ahead young city, just the place for an energetic young man to locate in.

KARL FORMES' MAMMOTH CONCERT.—The opening of the books yesterday morning at Gould's Music Store for the sale of seats at Karl Formes' Grand Concert on Thursday evening, was the signal for a rush, and many seats were taken. The sale continues to-day.

This promises to be one of the largest and most brilliant concerts ever given in Chicago, and worthily, for what Jenny Lind was in her department of music is Formes, who stands peerless as the "Great Basso," equalled by none, approached by few.

SUIT FOR THE RECOVERY OF WASHINGTON PARK.—Washington Park is a tract of land, now very valuable, given to the city on the condition of improving it within a fixed period suitably for the purposes of a Public Park. So improved it would become a beautiful and valuable improvement in its section of the North Division just north of Chicago Avenue.

A suit has been instituted and notice served upon the city that proceedings have been commenced in the United States Circuit Court in this city by Orsamus Bushnell of New York City, one of the original donors of the park property, to recover back a third of the same on the ground of non-fulfillment of the terms of the gift. The property in controversy is worth about $40,000. Messrs. Scates & Ashton, represent the plaintiff.

THE GREAT LAND SUIT.

The Illinois Central R. R. Triumphant.

VERDICT FOR THE DEFENDANTS.

The proceedings in the suit of *George C. Bates vs. the Ill. Central Railroad Company* in the United States Circuit Court in this city, concluded yesterday.

The case is one which from the outset has attracted much attention in this community, and in commercial circles throughout the country, both from the magnitude of the value of the property in controversy, variously estimated at from one and a half to two millions of dollars, comprising almost the entire depot grounds of the Company on the lake shore at the mouth of the river,—and also for the singular nature of the plaintiff's claims based on a slumbering and as was generally believed extinct title to a sandbar or spit of land, which by the opening of the straight channel of the river, some twenty-five years since, was thrown from the North into the South Division, and within a very few years after extinguished by the action of the waters of the lake. It was understood, and indeed in evidence, that the sum of *eight dollars* purchased the right and title of the plaintiff and those embarked with him in this adventurous crusade.

The case was opened in the United States Circuit Court, before Hon. Judge McLean, presiding, and Hon. Thomas Drummond, Associate, and during its progress has received such extended notice from time to time in our columns as we deemed necessary to the placing its prominent points before our readers.

The arguments of counsel terminated yesterday, and the jury, after being charged by Judge Drummond, retired about half-past four o'clock and having been out several hours came in last evening with *a verdict for the defendants.*

The verdict accords with the general expectation of our public. Few will complain outside the number of the co-adventurers with the plaintiff.

AN EXCITEMENT AT THE BRIGGS HOUSE.—There was heard a scream—a woman's scream—a voice lifted up like that of a pelican in the wilderness and a shout, and a scuffle, and with one hand in officer Douglas' hair, and the other stretched towards Heaven, "My child! Save my child!" rang through the halls, and flooded the chambers, and poured down the staircases, and astounded the office of the Briggs House—and all at the hour of 8 A. M.

There was a rush to one common centre, of a score of men prepared to do deeds of knightly daring, for when was woman's like appeal in vain? And there was a sensation when it was found that a little girl of eight years of age was the cause of the outcry, and that a pair of our city detectives were busy in the attempt to leave the woman and the house, and take the child with them.

Had the cheerful, sunny hearted Snarleyouw looked on, it is probable that he would have worked himself up into a column of staring capitals, in which with sweetness and originality he would have shown that to kidnap children is characteristic of the present city Administration, and it is likely he would have required up an endless array of exclamation points to express the horror of his tender soul. He may do so yet, being hungry for horrors of the kind.

After much sensation, and what looked like a vigorous desire and attempt on the part of the woman to *shampoo* officer Douglas' head, and after an infinite number of small speeches from various parties, on the subject of Magna Charta Habeas Corpus and like distinguished personages in the legal line, the child was "torn away!" (*vide* Snarleyouw's account) and whirled away in a hack to the depot, leaving with her custodian for Milwaukee at 9.30 A. M.

The female smoothed her ruffled feathers, dried her eyes, paid her bill at the Briggs House and wended her way. The lookers on mollified their excitement, took a new view of the case, and the order and economy of that excellent establishment of the Briggs House went on as usual. It was all explained as we shall briefly explain to the reader.

The case is one that has been causing much sensation in Milwaukee, where for some days a hearing has been in progress before Judge Paine, on a *habeas corpus* procured by the woman above referred to, to recover possession of the child from R. W. Roberts, Esq., in whose family the child has been since June last.

In the month of June a fight occurred at an infamous den in that city, and the child, then living with an infamous female named Emma Tower, as her reputed mother, was thrown into the street. She was picked up and cared for by a passer by, and came into the family of Mr. Roberts, a leading railroad agent of that city, who resolved to provide her a home.

The poor little creature was, in addition to the usual marks of neglect and suffering, actually a victim of a loathsome disease. Mr. Roberts at once took measures to give her the best care and attendance, and with success, and she was repaying the love of her new friends with childish affection, when the infamous women of her former home resolved to recover possession of her.

Mr. Roberts resisted, the child refused, and legal proceedings were instituted, the first legal skill of Milwaukee volunteering in behalf of the child and her protector.

While the case was in hearing on Wednesday last, the woman first referred to, of notorious repute both in Chicago and Milwaukee, as Rosa Rawson, *alias* Smith, *alias* Tower, claiming to be the child's mother, suddenly disappeared with her during the noon intermission.

She was traced to this city, and, armed with the necessary papers, Mr. Roberts, who has resolved to go all lengths to rescue the child, followed, and with the aid of officer Douglas, succeeded as above.

When the matter was explainied to the crowd, gathered and excited by the violent and strained outcries of the woman, their sympathies were entirely with Mr. Roberts and the officers.

NOTHING LIKE PURE MILK.—Two men named Butterfield and Jones, must have read Frank Leslie, and remembered the "Dope war" in this city, and resolved to secure pure milk at all hazards.

A Hibernian gentleman named Murphy was pitched upon by the twain, partners in the desire for the lacteal in original package, and with a goodly deal of plying with poor whisky, Murphy was persuaded for the benefit of his employers to avail himself of the proverbial good taste and judgment of Dr. Egan in the selection of milch kine.

He wended his way to Egandale and thence persuaded a fine young cow to return with him to the milk-loving Jones and Butterfield, who in the rear of their premises on Market street near Randolph, constructed a stable close and high, wherein the borrowed bovine was stored, and the little Butterfields and Jones rejoiced in pure milk.

They may have got the milk, but the cream of the joke fell to poor Barney, who immediately settling with his employers, got paid off in liquor, and, as he had no jug or other utensil, was forced to carry his wages in a skin, as in old times, to wit: the skin of Barney Murphy. The load was heavy, the road was rough, and Barney was towed into the lockup badly strained and unseaworthy. Thence he was sent to Bridewell.

On reflection, his penitence for his own misdeeds led him into confessing those of Jones and Butterfield, who were yesterday arrested—the cow restored to her owner, and the pair sent to jail, in default of $405 bail each, for larceny.

MACADAMIZED STREETS.—We would suggest to the proper officer the propriety of scattering a little gravel on the macadamized streets in the West Division. The broken limestone wears down very slowly. On Lake street, after four to six weeks' constant use by multitudes of teams, only a narrow path is worn along the centre of the street, and from, present appearances, years will intervene before the sides will become solid and smooth. A little gravel or clay scattered over the sharp, irregular, flinty limestone, would produce a cement and cause the whole road bed to wear equally; teams would then travel over all parts of the track instead of in the middle, as at present. There are a couple of blocks macadamized on Madison street, where some dirt has been spread over the stone, and it is seen how beautifully smooth the street has become. Will the Superintendent look into this matter "slightually?"

POLICE.—In the Police Court little of importance was disposed of yesterday. A great slaughter was made of vagrant and drunken cases by Justice Stickney.

OUR MANUFACTURERS—TAPPENS' CLOTHING HOUSE.—Within a few years past a marked change has taken place in the course of trade in Chicago. From being a mere mart for the sale of products manufactured abroad, we have each year in an increasing degree made broad and broader our phylacteries, and set up more and more an independence of our own as a manufacturing centre.

In clothing this is becoming especially true. We even now look to the East of course for the bulk of the garments that supply the immense clothing trade of our city, but the simple mention of the fact that one house, that of TAPPEN BROS., No. 108 LAKE STREET, turns out from three to four thousand dollars worth of finished clothing of all grades weekly from their force of operatives, tells well not only for themselves, but for the city, in thus inducing and sustaining this change in their business relations to our community, from dealers becoming extensive manufacturers.

The excellence of their manufactured stock is equalled only by its variety, suiting every taste and purse, from Barney on the ladder, or Bob at the mast-head, to the demands of the professional man, the business man, and the exquisite.

The house also present to their customers the advantage of choice direct importations both of styles and stylish goods, from Richard and others of Paris and London, and also from leading importers in New York.

Their system of trade for years past of their successful business here, has built up for them a leading reputation, the impetus of which carried them through a year of disaster and loss, and secures them a trade any house in the Northwest might well envy, but which no skill or enterprise less than their own could compass.

A CAPITAL APPOINTMENT.—We learn that S. F. Johnson, Esq., has resigned his position as Superintendent of the Chicago, St. Paul & Fond du Lac Railway, and that Geo. L. Dunlap, Esq., late Assistant Superintendent has been appointed to fill the place made vacant by the resignation. The public will regret to part with Mr. Johnson, who has so long and so ably fulfilled the duties of his office; but they will find Mr. Dunlap a most gentlemanly and in all respects a capital officer He is thoroughly experienced in the management of railways, having served upon the Erie and other Eastern roads; and we doubt not he will soon secure a widely extended popularity and usefulness. This road is now entering on a new life and it will we trust soon be connected with another great Wisconsin line, making it one of the most important roads entering the city. Mr. Dunlap is just the man to direct its affairs in the important crisis on which it is entering.

AN IMPORTANT SUIT DECIDED FOR THE CITY.—Intelligence reached this city yesterday as to the important suit of Drew & Goodrich vs. the City of Chicago, on an action for damages, in which $18,000 was claimed as compensation for injuries received by the steamer Huron, sunken by contact with a submerged wreck of the schooner McKay, near the mouth of the river, a year or more since.

The suit was first tried before Judge Manniere, and a judgment given the plaintiff. Afterwards, by an agreement, the verdict was given the defendant, in which shape it was carred to the Supreme Court, who have just affirmed the latter verdict.

HOMES IN THE WEST.—Rev. W. C. Van Meter leaves New York this morning with a party of sixty children bound for homes in the West. He will reach Chicago on Friday morning, and the children will proceed at once to the Olivet Presbyterian Church on Wabash avenue, and thence be taken to their places of temporary accommodation among one of our citizens, until Saturday, when the party will proceed to Madison, Wis. The party consists chiefly of boys of ages varying from nine to thirteen years. There are three babes. Mr. Van Meter will be at the Matteson House within the period named, and all desirous of opening to any one of these little ones their heart and home, can thus have an opportunity.

MELANCHOLY OCCURRENCE—THREE LIVES LOST.—On Monday afternoon last three men, named Thomas McGrade, William Butler and Michael Roach, were at work sinking a well for Squire Malony, at Willow Springs station, town of Palos, on the Chicago, Alton & St. Louis R. R., about fifteen miles from this city, they were one after another overpowered by the deadly atmosphere at the bottom of the shaft, one being lowered successively to the relief of the preceding one and each falling lifeless. The two former were married men and leave families. Coroner Hansen was to have held an inquest yesterday.

A HORRIBLE CASE.—A hoary wretch named Edward Wilson, with one foot in the grave, and about seventy years of age, and Eliza Wilson, his daughter, a woman of forty years of age, were brought before Justice Stickney yesterday on a charge of having maintained incestuous cohabitation for some months past. They have resided in a small tenement on Wolcott, near Hickory street, and have been notorious in their infamy for some time past. They were committed to jail in default of $500 bail.

MERCHANTS' POLICE.—We recently adverted to the stringent necessity of an increase of our night police force, to meet the evident exigency indicated by frequent burglaries about town. A correspondent as below, so sets forth what are the claims of the Merchant's Police, and its capabilities that we let him speak for himself.

MESSRS EDITORS:—In reply to your article of Saturday mornings issue, on burglaries, I would say there is a preventative already in our midst, that if it had been more generally patronized, you would have had fewer of such depredations to record. A number of our bankers and merchants have not waited until they were visited, but have supported a Night Watch that has at a trifling expense thus far preserved them from these friendly callers, and I think it only requires my system to be more fully known to be generally adopted, and it is this: We take small beats, so that we are able to visit the alleys and streets four or five times an hour and once each hour we try each subscribers door, which brings a man's attention more particularly to each building.

If there has a fire broken out he is quite sure to discover it, and in that case he knows where the men sleep on the block, and will have men brought out and the fire extinguished before an alarm is ordinarily given, and in case of a prospect of a large fire, will pass the alarm with the signal, till it reaches the Court House, and the man in that neighborhood give the alarm to the tollman. If burglars are at work, this means is sure to discover them. I like my subscribers to have some crevice or opening by which we can see into the building at all times. If there is a by-place or alley by the building that the city police never visit, that is a place that receives our particular attention. If the merchants' of Lake, South Water, Randolph and the cross-streets, will all subscribe, I will put a man on every square, and make it my business to see that they attend to their duty, and by this means burglaries and large conflagrations will become almost an impossibility.

The large numbers of bankers and merchants whose premises we have been watching for with very general satisfaction for the last seven months, proves the soundness of my plan. for though there have been upwards of twenty burglars within a block of my district during that time, there has been but two among my customers and those the attending circumstances was such that blame was not attached to my men.

My customers pay me for watching their buildings, and it is my rule for my men to give them their whole attention, and so long as they are satisfied we are content. A case might happen that a store adjoining one of ours might be visited by a burglar, and he remain there for hours, and we not know it: for in passing a non-subscriber's building it is convenient for us to notice those who do subscribe on the opposite side of the street. I commend this matter to the business men generally, for fifty cents per week is but a small sum to have a store watched as I have them.
G. T. MOORE, Merchants' Police.

A TRIBUTE TO THE MEMORY OF HENRY BANDT.—At a special meeting of the Chicago Board of Underwriters, yesterday, the following resolutions were unanimously adopted:

WHEREAS, Intelligence has been received of the terrific loss of life, by the burning of the steamer Austria, on the 15th of Sept. last, and that among those who were lost, we recognize the name of our esteemed fellow citizen, Henry Bandt, Esq., a member of this Board, and Actuary of the Great Western Insurance Company of this city, who had been on a visit to his aged and sick mother in Germany; therefore be it

Resolved, That the members of the Chicago Board of Underwriters, while they bow with submission to the dispensations of the Divine Providence, hereby desire to communicate to the numerous friends of the deceased their deep grief on account of this sudden and severe affliction; and they further desire to express their high estimation of the great worth of the deceased as a citizen, companion and friend.

Resolved, That we deeply sympathize with her, who by this sudden and appalling calamity, is left a widow, to mourn the irreparable loss of a faithful husband and friend.

Resolved, That a copy of these resolutions be transmitted to the widow of the deceased, to his aged parents in Germany, and be published in the daily papers of this city.

THE CHICAGO MUSICAL UNION.—The second anniversary of the Musical Union took place at their Hall on Monday evening. The annual election resulted in the following choice of officers: President, J. S. Platt; Vice-President, J. G. Lumbard; Conductor, C. M. Cady; Secretary, E. A. Kimbark; A. L. Coe. The Secretary of the Society presented the annual report indicating a highly prosperous year past.

A committee chosen for that purpose—Messrs. Leonard, Peck and Dye—reported the expediency of establishing an elementary institution, as a sort of preparatory course, which should at the same time raise the standard of musical education in the Union itself, and furnish better musical facilities among our citizens; and further as follows:

The committee further recommend, that an elementary vocal class, or a drilling class, consisting of ladies and gentlemen, who have sufficient knowledge of the elements of music to enable them to read plain church music, be commenced, as soon as forty persons signify their wish to join such a class; that at the end of each quarter's instruction, the members of this preparatory drilling class be examined by a committee, appointed to the general charge of the department of instruction, which committee shall decide upon the musical qualifications of all persons applying for admission to the Union.

The report was adopted, and Messrs. Jones, Peck and Dye were elected a Committee in Charge of the Academic department.

New York Crystal Palace Destroyed by Fire--Other Fires in New York.

NEW YORK, Oct. 5.—The Crystal Palace, with all its contents, was entirely destroyed by fire this P. M. The Fair of the American Institute was being held there at the time. A large amount of property was destroyed, consisting of mechanical and agricultural implements, melodeons, pianos, steam engines, and other kinds of goods that were on exhibition. The fire broke out in the lumber room, which was filled with empty boxes and a large quantity of old lumber. It is believed to have been the work of an incendiary.

When first discovered, the Palace engine was brought out, but the hose was so full of holes as to be useless. The flames spread with astonishing rapidity, creating intense excitement among the visitors, who were estimated at upwards of 2,000. It is feared that many are killed; one dead body has been taken out. The heat was intense. The firemen's services were of no avail.

The whole building is in ruins, and very little of its contents are saved. Two only of the many fire engines on exhibition were got out uninjured. The building was crowded with articles on exhibition, of every possible description.

It is impossible to estimate the loss with any degree of accuracy. The building itself is estimated at $150,000. The contents must have been worth double that sum.

This afternoon a fire broke out in a stable in West 35th street, and soon destroyed it. The flames then communicated to five frame buildings adjoining, all of which were destroyed. Loss estimated about $8,000. Insured for $3,000. The fire was supposed to have been caused by a child playing with matches.

Further Particulars of the Burning of the Austria.

QUEBEC, Oct. 4.—We have ascertained the following further particulars from the rescued passengers of the Austria:

The pumps on board the ill-fated vessel, in connection with the fire engine, were not in working order. Some attempt was made to render them available, but the progress of the flames was too rapid.

Near the forecastle, ropes were made fast to chains on one side, and to these numbers clung, but as the flames progressed one by one gave way, and found a watery grave.

On the bowsprit the passengers were laid out tier upon tier, piled one on top of the other, sometimes four deep. This was a last resource, and from this they were finally driven. Only one man was left seated on the extreme end. Eighteens persons got hold of the chain forming the bowsprit stay, and clung to it till 5 o'clock the following morning. A seaman clambered from the stay to the bowsprit, and found there was a probability of extinguishing what fire there was there, and gave directions to those clinging to the stay to dip portions of their apparel in the sea and pass them up to him, and the fire was so far subdued as to render the bowsprit a place of comparative safety. They remained there until the boats from the Katarina picked them up.

Eighteen persons were found on the bowsprit, three in the water at the vessel's side, and one aft on the railing of the steamer. A young girl with her brother had remained all night on the bowsprit, hanging on by the rigging.

"FIRST FICTION OF THE FALL CROP."
The above caption heads a column of appreciative and commendatory review, in the Chicago Daily Journal, of A. S. Roe's new book—
TRUE TO THE LAST,
—OR—
ALONE ON A WIDE SEA.
One neat 12mo....Price $1 25.
Mr. Roe is a general favorite of the critics, as well as his 100,000 readers.
"Fresh," "charming," "interesting," and "popular," are a few of the adjectives used by the reviewers in commending "TRUE TO THE LAST."
Says the New York correspondent of the Boston Transcript (a literary gentleman of the highest character):
"Of a more advanced species of interest, and yet equally removed from the meritricious and extravagant novel, are the writings of Roe, who is a sort of Long Island Goldsmith, whose thoroughly domestic genius was long ago recognized by the publishers. This writer deals neither in the romance of adventure nor the intrigues of fashion, while his art far surpasses the moral commonplaces of 'poor but pious' raconteurs. He is a very patient observer of men and things around him, and by virtue of an honest sympathy therewith, weaves narratives of sustained interest, and draws characters which, however humble, are as genuine in their way as Edgeworth or Mrs. Inchbald ever conceived; moreover, they appeal to average sympathies and charm rural households with true pictures and practical examples of worth. Herein Mr. Roe is a benefactor to the masses, and a quiet reformer. The title to his books indicate their scope,—'A Long Look Ahead,' 'I've been Thinking,' 'To Love and to be Loved.' natural, domestic and genial are these transcripts of one of the largest spheres of American life; and the last, just published by Derby & Jackson, and entitled 'True to the Last,' is, in many respects, the best of the series. We commend it as unexceptionable, graphic, unaffected, and instinct with unostentatious but truthful art."

Dr. H. C Daniels, Naperville, Ill., Sept. 4, 1855, says: "Your Ague Balsam gives the best satisfaction of any Ague medicine that has ever been in the country. SATURDAY, OCT. 16, PURSE $400.—Mile heats, best three in five, to harness. Free to all trotting horses.

The Proprietors of the Garden City Park Association having, after considerable effort and liberality in the Purses, secured the attendance of the celebrated Trotting Mare, Flora Temple, they trust their exertions will be appreciated by the public, as they now have an opportunity of witnessing the fastest trotting ever before seen in the West, and Flora Temple will meet some of the noblest foes she ever yet contended against. As the whole Northwest will be anxious to witness the contest for the championship of the turf, there is no doubt but the Railroads leading into the city will reduce their fare to half price, of which notice will be given.

A Federal Slave Code for the Territories.

The argument by which the advocates of a federal slave code for the protection of slave property in the Territories sustain their demand, is wholly unanswerable if the premise on which they base it be conceded. If, as the Supreme Court Judges have said in the Dred Scott case, the federal Constitution carries slavery into the Territories, that it "recognizes the right of property of the master in a slave, and makes no distinction between that description of property and other property owned by a citizen," it follows with an irresistible logic, that Congress has no right to deny to the slaveholder "the benefit of the provisions and guarantees which have been provided for the protection of private property." There is no avoiding the correctness of this conclusion, if we accept the *dicta* of the Supreme Judges as a fair and truthful interpretation of the federal Constitution. We must deny the premise wholly, or we must concede all that is demanded. We must insist that the Judges have made an incorrect reading, or be prepared to admit that the former policy of the Government, with respect to Slavery in the Territories, has been based upon an entire misconception of the letter and spirit of the Constitution, that it is directly in conflict with that instrument, with the intent of its framers, that our government was really designed by those who founded it to be permanently a slave government, and that its fundamental law was framed with direct reference to the securing of that result.

The Republican party deny and repudiate the premise upon which the argument for a slave code is predicated. They deny that the right of property in man is one of the guarantees of the federal Constitution. They hold that slavery is a creature of municipal law, and that it cannot have a legal existence beyond the boundaries of the State by whose enactment it is created. They believe that the men who made the federal Constitution are the best and safest expositors of its meaning; and as these men inaugurated a governmental policy under the Constitution with respect to slavery in accordance with those views, the inference is irresistible that such was the intent of its framers.

But both wings of the Democratic party hold the reverse of this. They accept the *dicta* of the Federal Judges as the correct interpretation of the Constitution. They hold that whenever a Territorial government is organized by Congress, on that very instant slavery becomes as much an institution of the new Territory as it is of South Carolina or Georgia—that it is carried thither by virtue of the Federal Constitution, and that neither Congress nor the Territorial Legislature has power to exclude it. This is the doctrine of the Democratic party to-day. It is announced authoritatively in their National and State platforms, by their newspaper organs and by their public speakers. They have adopted the premise cordially and fully—they cannot escape the corollary. If the Democratic party maintain the ascendancy in the Federal government, it is bound to enact a slave code for the Territories, or it must repudiate the *dicta* of the Supreme Court in the Dred Scott case, and assume Republican ground upon the question. The Southern papers are already becoming clamorous for affirmative action. The Richmond *Enquirer*, a zealous organ of Douglas and of slavery-extension, says such a code is clearly necessary, that the South ought to be grateful to Mr. Douglas for having pointed out the fact as clearly as he did in his Freeport speech, and that the Democratic party must furnish the needful legislation in Congress to render the slaveholders entirely secure in their rights in the Territories. But the *Enquirer*, evidently anticipating an increase of Republican votes in the next Congress, and a consequent diminution in the chances for getting such a code immediately, urges the Democratic party in making its nomination for the Presidency in 1860, to be very careful to confer the honor upon a man fully in favor of using all the powers of the federal government for the protection of slave-property in the Territories. Says the *Enquirer*:

> Under the present state of Federal legislation much, if not all, must depend upon the loyalty and efficiency of the President of the United States. He it is who appoints the Territorial Executive and Judiciary. It will be the duty of the President to hold both functionaries to a zealous performance of their several offices. Hence, we cordially unite in the assertion *that the next Democratic nominee for the Presidency should be pledged to the protection of slave property in all the Territories.*

But this is only wanted as a temporary expedient. The *Enquirer* has no doubt that the "just rights" of the South will be regarded by the Democratic party, and that the required code will, in due time, be enacted by its representatives in Congress. The Charleston *News* holds to the same opinion, and says that the question of a federal slave code for the Territories must constitute the issue in 1860. Even Northern Democratic papers are beginning to break cover on the subject. The New York *Day Book* opens in the following style:

> Of course the people of a Territory, when they frame their State Constitution may adopt or exclude "Slavery;" *but while they are a Territory*, if they fail to protect property invested in the person or industrial capacity of the negro, they grossly violate equal rights, and therefore are *not authorized to consider themselves Democrats.* The whole question is resolved into this simple right or no right *to protection to slave property in the Federal Territories*, and as the Charleston *News* suggests, *it must constitute the issue of* 1860.

Mr. Douglas has been interrogated upon this subject, but he makes no direct answer, nor will he make any during the present canvass. How he would reply were he re-elected to the Senate, or if he felt any assurance that his election was certain, his past devotion to the slaveholding interest does not permit a doubt. Admitting the right of the slaveholder under the Constitution to take his slave property into the Territories, he would not hesitate to afford all the legislation necessary to secure him in the enjoyment of that right. And he would place his action upon the same ground that he does his support of a fugitive slave law—having sworn to support the Constitution, he must carry out its guarantees in good faith. In less than two years time Mr. Douglas will either be arguing in this way for a federal slave code for the Territories, or he will be in the Republican party. There is no middle ground, no half-way house; he must go for it, or array himself against that party which the slaveholders, in their aggressive war upon free institutions, claim as their natural ally. If successful in the present contest, he will adopt the former course; if defeated, it is of very little consequence what course he may pursue.

Republican Platform.

We publish in another column the Republican Platform as adopted by the National Republican Convention held at Philadelphia in 1856, and the Illinois Republican Platform, as adopted in State Convention at Bloomington in 1856, and at Springfield in 1858. These constitute the creed of the Republican party, and from them all honest inquirers can learn for themselves what that party proposes to do, and how greatly it has been misrepresented by its opponents. Our friends will do well to preserve copies of these documents, so as to be ready at any moment to show up the shameless mendacity of the pro-slavery politicians who seek to build up themselves and their party by a constant misrepresentation of the principles of ours.

☞ The speed of the comet now exhibiting itself nightly to the admiring gaze of our citizens, is computed to be 150,000 miles per hour, at which rate the distance between Boston and San Francisco, round Cape Horn, (10,000) would be accomplished in four minutes; or between New York and Liverpool in one minute and six seconds.

Blair and Douglas.

For years past Mr. Blair has been working in Missouri, with almost superhuman energy, to rid that State of the curse of human bondage. Without professing to base his labor solely on the moral and religious aspects of the Slavery question, he has addressed himself with signal ability and marked effect to the interests of the white race. Himself a resident of a Slave State and the owner of slave property, he has a double right—as an American citizen and as a slaveholder—to apply himself to the economical, social and political bearings of the institution upon his friends and neighbors. He has complied with the repeated injunctions of doughfaces of the North, when expostulating with anti-Slavery men among us,—"Go South and preach to the slaveholders, and see what they say;"—and in carrying out his ideas and purposes, has displayed a degree of moral and physical courage, and a persistence in the right, which do infinite credit to both his head and heart. Such a man, fighting his battle in such a cause, amid the dangers and discouragements which attend a career like his in a border Slave State, ought to have commanded the support, sympathy and approbation of every lover of his country, regardless of his party affinities, in the whole North. But no prominent man in our political contests has been called upon to endure what Frank Blair has encountered. Among his calumniators none have been more reckless or more debased than the same doughfaces whose advice, in addressing himself directly to slaveholders, he has followed. They have traduced him personally, misrepresented his motives and positions, and whenever and wherever they could invent or revamp a lie that could be circulated to his disadvantage, they have been ready for the acceptable task. When he was overwhelmed by defeat—a defeat brought about by forgery and the thousand frauds which the Democracy know how to use—Mr. Douglas, the type and representative of all Northern men with Southern principles, stopped in one of his harangues to congratulate his hearers upon what he termed the "glorious result." Mr. Douglas, a degenerate son of Vermont, the representative of the free State of Illinois, and *in private* the professor of free soil principles, called for cheers when he first learned that the champion of free labor in Missouri had encountered a check. On all the old issues that divided the parties when they were labelled 'Democratic' and 'Whig', Mr. Blair has a Democratic record more unimpeachable than that of Douglas himself. The difference between them is, then, only this: Mr. Blair is earnest in his advocacy of free men and of free labor in the territories of the United States, and Mr. Douglas is the avowed champion of their opposites. Mr. Blair would devote the national domain to the use of the free whites; Mr. Douglas would consecrate it to slavery alone.

The gallant Missourian will address the people of Chicago to-night; and if we are not mistaken in the temper of the man, he will make Mr. Douglas his special theme for the occasion. Beneath his pungency of speech, his fertile recollection of facts and invincible logic, the Little Giant will be made to squirm. Long before Mr. Blair concludes, the Senator's friends will regret the position into which his servility to the South has betrayed him.

The Definition of "Douglasism."

We made some allusion yesterday to the unlucky practice which Douglas and his organs were getting into, of perpetrating opposite and contradictory falsehoods. We referred to the extraordinary assertions, coming in quick succession, that Lincoln was a Pro-Slavery man and at the same time in favor of "Negro Equality." These strange antitheses are coming thicker and faster. We ascertained from Douglas a few days ago that the Republican party was so committed to Lincoln that in the event of his death we could elect no Senator at all, But hardly has this syllogism had a chance to try its strength when the Chicago *Times* finds out that it is not Mr. Lincoln to whom we are committed, but it is the Chairman of the Republican Central Committee, Hon. N. B. Judd of Chicago! A little earlier in the campaign it was John Wentworth—at least Douglas said so in his anti-Leib speech in the Senate. Fortunately Seth Paine's espousal of the Douglas cause in West Chicago, has debarred him from Republican support for the United States Senate this heat. The *Times* colors its assertion concerning Mr. Judd with a paragraph purporting to come from the Elgin *Gazette*—on the same principle that one falsehood colors another anywhere else.

This and scores of similar assertions—similar in untruth and at the same time matchless in their destitution of probability—impel us to remark upon a peculiar system of tactics introduced into the politics of Illinois by Mr. Douglas, and we believe original with him. Its primary maxim is, "Give your antagonist something to talk about. Never let him tell his own story. Make a statement, true or false, good, bad or indifferent. Get him to deny it if you can, and when he has done it give him another—and so on to the end of the chapter." We refer to it now not by way of complaint, for we learned a good while ago that the way to beat Douglas was to let him fling his canards and libels around wherever he chose and not dignify them with anything more substantial than a sneer. He cannot draft plans for his own campaign and ours too. He must not undertake to play right hand against left, with the Republican party of Illinois for a champion. It is a shrewd kind of game when one has no reputation for veracity to lose. We have frequently referred to these random shots under the general designation of "Douglasisms." If called upon for a definition in brief we should say a "Douglasism" was an averment of a state of case generally known to be untrue, designed not so much to be believed as to occupy the attention and bewilder the senses of the public. Of this kind was Douglas' statement that Mr. Lincoln trembled at Ottawa, so he "had to be carried from the platform," and that he "laid up seven days," after the event. Of this kind are a hundred other unaccountable assertions which have come from the same authority since the opening of the campaign—unaccountable on any other hypothesis than the one to which we have adverted. And by a nomenclature equally strange, this system of lying at wholesale is called "putting Lincoln on the defensive!"

It is true Mr. Lincoln had so far forgotten the early character of his antagonist as to suppose a gentlemanly deportment would be appreciated. He was not long in finding out the error, as Mr. Douglas can testify from the later events of the campaign. Some four weeks remain before the election closes our shower of "Douglasisms," and through our readers find the season growing more rainy every day till November, we assure them the things are harmless if unmolested.

Both Sides of the Question.

Now that the *Times* is publishing extracts from speeches for the benefit of the "Americans" of this State, why will it not go back to the record, and reproduce a few of Douglas' classic harangues, wherein they are stigmatized in the Senator's selectest smut? Let us have both sides of the question.

Important Step of the Hudson's Bay Company.

Sir George Simpson and his associates, on their late visit to St. Paul, says a correspondent of the New York *Herald*, effected permanent arrangements for direct importations to St. Paul by the Hudson's Bay Company, for distribution thence to the posts of the Company in the Saskatchewan Valley. This is an important step, indicating as it does the extinction of the Company's monopoly, and the institution of a trade that is to open the way for a railroad to the Pacific. There is now every probability that another year will not pass before the British Government will have organized a colony in the valley of the Saskatchewan, like that which is being established in British Columbia, furnished with all the appliances of progressive civilization. This done, and a railroad from St. Paul to Pembina will have become a necessity, and the next session of Congress ought not pass by without application being made for a grant of land to secure its construction.

Lovejoy at Hennepin.

[Correspondence of the Press and Tribune.]

HENNEPIN, Oct. 2, 1858.

This has been a grand day for the Republicans of Old Putnam. The people were out in full force with flags and banners, four-horse teams, two-horse teams, carriages and buggies and all the paraphernalia that go to make up a grand display, showing that our friends here are awake and in earnest. At 8 o'clock in the morning the people commenced pouring into town, and before noon the streets were full.

Delegations came in from various surrounding towns, with music playing and banners flying. At half-past two o'clock the speaking commenced on the Fair Grounds. Mr. Lovejoy addressed the people for nearly two hours, during which he held the undivided attention of the audience. The speaker was, as he always is, logical, humorous and forcible, and the whole meeting a decided success. At the conclusion three cheers were given for the Declaration of Independence and the Constitution of the United States, three times three for Lincoln and Lovejoy, when the procession was re-formed and marched back into town.

A little incident happened during the meeting which shows how scrupulous our Douglas friends are to observe the rules of propriety and good breeding. When the speaker had about half-finished his remarks, three or four persons came into the inclosure with horses and sulkies, and started with a shout and a yell, upon the trotting course; pretending to try the speed of their nags, but in reality attempting to draw the attention of the crowd from the speaker. After trotting around the course two or three times, and making as much disturbance as they could, finding that they were not likely to succeed in their plan, they became ashamed of themselves and left the ground. One of these men was Mr. Douglas's Marshal, and a man who sometimes pretends to be somebody, but he showed out what he is to-day.

Fremont's majority in this county over Buchanan was 225, and Lovejoy's over Osgood 107 in this county in 1856. The Americans then voted for Osgood and Fillmore. The best judges now estimate the Republican majority in this county at 300 for the entire ticket. The Americans will generally unite with the Republicans. There are, however, a few sore heads who will fall over to the share of Douglas; but our majority will undoubtedly be very considerably increased. Our friends here have no doubt of the election of McCall, the Republican candidate for Representative in this district. Mr. Bestor, the candidate for Senator from the counties of Peoria, Woodford, Marshall and Putnam, is also considered certain of an election by a handsome majority. We intend to keep the ball rolling until after the election, when, if you do not hear a good account of us, we shall be as much disappointed as you can be.

A. B.

P. S.—I had almost forgotten to speak of Judge Dickey's speech, who followed Douglas on Tuesday, but I must do so, so far as to give the story with which the Judge commenced his harangue. The story was this: During the early settlement of Kentucky a company of hunters crossed the Ohio and fell into an ambush of Indians, who killed a portion of the party and wounded others. Those who could do so, fled in great disaster to the river, and hastened to cross into Kentucky. Among the retreating party were two persons between whom there had been for many years a bitter feud; so bitter that each had sought the life of the other. As one of these persons was spurring his horse at full speed to escape from the pursuing foe, he came upon his enemy who had fallen wounded from his horse, and was lying beside the faithful animal by the root of a large tree. Seeing his fallen enemy he had compassion on him, replaced him upon his horse, covered his retreat with his rifle, and brought him off without further harm. This is the story—Douglas is the wounded and flying man, and Dickey the old enemy who is covering his retreat as he retires before the pursuing Republicans who are close at his heels, and do not intend to give up the chase until he is politically dead, or driven to his negro plantation in Mississipi. I hardly think Douglas will thank Dickey for telling a story whose application places him in such an evil case.

Stuart, Matheny, Douglas and Lincoln.

[Correspondence of the Press and Tribune.]

SPRINGFIELD, Ill., Oct. 4, 1858.

I have heard Douglas on the stump say that John T. Stuart, of this city, was "for Douglas;" and I have likewise heard him say that Mr. James H. Matheny, our candidate for Congress, had charged that Trumbull and Lincoln had entered into a conspiracy to abolitionize the Whigs and Democrats, and that Trumbull cheated Lincoln, through the basest treachery, out of the United States Senatorship, as part of the consideration going to make up the conspiracy agreement. I wish to put this matter right before the people of Illinois, for I have taken some pains to find out the facts:

Firstly—I state that I met Mr. John T. Stuart at Lincoln, in Logan County, last week. I saw it stated in the Missouri *Republican* of last week that Mr. John T. Stuart was in favor of Douglas. I determined to ask Mr. Stuart if this *Republican* article was true, so far as it spoke of himself, or in other words, "Was Mr. John T. Stuart in favor of Mr. Douglas and opposed to Mr. Lincoln?" I put this question substantially to Mr. Stuart, and he answered me, and that too without reserve, that he *was not* in favor of Douglas, said he would not vote for him, and, as I understood him, he put his *opposition* to Douglas on the grounds of his Freeport speech, and that means his opposition to Constitutional guarantees, to the Constitutional rights, due and owing the South by the whole people. As to the first point—*opposition* to Douglas—I speak positively and knowingly. You may set down John T. Stuart as opposed to Douglas. He *may not* go for Lincoln, but he *will not* go for Douglas.

Secondly—As to Mr. James H. Matheny, I wanted to know whether this charge, which is *said* to have been made in Petersburg by Mr. Matheny and published in the *State Register* and Missouri *Republican*, was true or false; and so I went to Mr. M. myself and asked him this question substantially: "Mr. Matheny, did you ever charge Trumbull and Lincoln with forming or attempting to form a conspiracy, and that Trumbull cheated Lincoln, &c., as said in the *State Register* and Missouri *Republican*, and as retailed by Senator Douglas from the stump during the present canvas?" I ask, did you ever say what is here asserted?" His answer to me was this: "I never said so in my life. What I did say is and was falsely reported by * * *, and after the article appeared I told the scoundrel of his dirty trick. The thing is false and knowingly so." This conversation I had with Mr. Matheny, and his answer to my question is herein substantially given. None of these conversations were secret or private, as I understood, and my duty to other honest men who are injured by these reports—these wilful lies—compels me to state to the people of Illinois how this matter is.

We are in great hopes here that these facts will be made public and known throughout all Illinois. As to the conversation with Mr. Stuart, I will refer to Judge David Davis, of Bloomington, and as to Mr. Matheny I am responsible, and my name may be given when necessary.

Adams County Fair.

[Correspondence of the Press and Tribune.]

QUINCY, Oct. 2, 1858.

Our County Fair, of which I wrote you in a former letter, has just closed. The weather has been delightful; besides, a fine rain of Thursday evening laid the dust, and thus added greatly to the comfort of all. The show of Cattle was not large but good. The show of Horses and Colts was quite good, and many of them very superior. The justly renowned "Silver Heels," owned here by Gen. Singleton, was loudly called for several times by the crowd, but owing to the fact that he had not been harnessed in a long time, Gen. Singleton refused to "trot him out," for fear he would become unmanageable in such a crowd.

The attendance upon the grounds yesterday was fully six thousand at 2 o'clock; all appearing to enjoy themselves hugely.

The display of vegetable, farm and dairy products was far superior to that made at the State Fair at Centralia. The display of carriages by Hays, Woodruff & Co., and E. M. Miller, of this city, was very fine, and equal to anything of the kind I ever witnessed.

The show of Ladies' Fancy and Ornamental Work and textile fabrics was highly creditable to all concerned, and was one of the strong attractions of the occasion.

This county is famed for the quantity, quality and varieties of its fruits. This has not been a good fruit year anywhere, but the show of fruit was very fine indeed, and in great variety, mostly apples. No peaches of any account here this year. There were some fifteen entries of fruit. The first premium was awarded Mr. C. Chatten, he having fifty-two varieties correctly named, besides a number not named. I was much pleased to meet and become acquainted with *some* whole-souled, enthusiastic fruit growers here. A beautiful collection of plants from the conservatory of Mrs. C. A. Savage, together with bouquets of cut flowers from Mrs. P. O. Koller, made a charming display about a green mound, surmounted by a fountain supplied from *a barrel up a tree.* Good idea, that fountain!

The trotting matches have been the great feature of to-day, but owing to an unfortunate accident to a noble horse owned by Mr. J. B. Bennet, that happened yesterday (Thursday) afternoon, and which it is feared will ruin the animal, and the fact that another of the horses got excited and was "bound to run" anyhow, the fun was not what it otherwise would have been. The last thing—a foot race—for which about a dozen competitors entered, was highly enjoyed by the entire crowd at the start; but as all were in breathless silence awaiting the great "come out o' that," one of the runners came puffing and blowing past the stand with his tongue out, the balance having "gin out" and laid down under the shade.

In conclusion, let me say to residents of your city, that they should become more familiar with the beauty, healthfulness and charming surroundings of *this* the Gem City of the Mississippi Valley. Yours, &c., McGowan.

FIFTH ANNUAL FAIR OF THE IOWA STATE AGRICULTURAL SOCIETY.

[Correspondence of the Press and Tribune.]

OSKALOOSA, Iowa, Sept. 30, 1858.

The day opened dark and lowering; about noon it began to sprinkle, but soon after the clouds dispersed and the sun finally set clear. In the morning quite an excitement prevailed, in consequence of a report that on the preceding day there had been

A MAN SHOT.

The particulars, as we were able to ascertain them, were as follows: A mulatto boy bound to the Rev. J. Townsend, of Iowa City, had been kidnapped or persuaded away by a man named Parker, it is supposed with the intention of running him into Missouri and there selling him as a slave. The boy was discovered, by the persons in search of him, in the possession of a person named Hunt, a resident of Oskaloosa, but a man of no reputation. An altercation ensued, when Hunt drew his revolver, and, either by accident or design, shot a Mr. Hollingsworth, a respectable citizen, also of Oskaloosa, who was standing near, wounding him in the leg and fracturing the bone. Hunt was arrested and committed for trial.

THIRD DAY.

At 9 o'clock this morning a trial of draft horses took place, and after much animated competition, resulted in the first premium being awarded to S Ingles, of Oskaloosa.

At ten o'clock the male portion of all the different classes of horned cattle were exhibited in the ring, and premiums awarded by the judges. For the best thoroughbred short horn bull, three years old and over, H. G. Stuart, of Lee County, took the first premium. C. D. Bent, of Iowa City, exhibited the best Devon bull.

At 12 M. the premium was awarded for the best *herd*, consisting of a bull and four cows of any breed. There were five competitors for this prize, but Mr. Cannon's herd was pronounced the best.

At 1 P. M. the trial of roadsters was had, resulting as follows: Stallions, 4 years and over, Mr. Wolf, of Cedar Rapids, on "Tom Hyer," before described; stallions, 3 years and over, E. Wheeler, of Mahaska County, on a gray Morgan owned by him. A Morgan stallion, exhibited by Dr. Simmons, of Iowa Falls, was much admired; although twenty years old, he possessed as much spirit as a colt of three. At 3 o'clock the mules and asses were brought into the ring, when J. Alexander, of Ottumwa, received the first premium for jack, four years old and over; A. Hurst, of Jasper County, the first for jack, two years and over; and the same party, the first premium for jennet, four and over. F. McCoy, of Keokuk County, exhibited the best pair of mules, and R. Gregg, of Des Moines, the best single mule. The awards being now all made, the Treasurer commenced paying the premiums.

The attendance to-day is estimated at between 6,000 and 7,000. Yesterday it was thought to be about 5,000.

DISCUSSIONS.

During the first three days of the fair, meetings were held each evening in one of the churches of the city, for the mutual expression of opinion on certain specified subjects tending to promote the interests of agriculture. At the first meeting "Fruit" formed the topic; at the second, "Farm Products," and at the third, "Live Stock." These meetings were well attended, and as interesting as could be expected from the irregular manner in which such discussions are usually conducted. Doubtless, however, many important facts were propagated.

SORGHO.

The samples of Sorgho molasses on exhibition are more numerous than we at first supposed from a hasty glance through the department in which it is included. The farmers of this section of country seem much interested in the culture of the cane. Scarcely a farm that has not more or less of it growing, while ever and anon the traveler through this tier of counties is greeted with the creaking of the clumsy wooden mill used in expressing the juice. We learn that near Sigourney, the county seat of Keokuk, as many as twelve of these mills are in operation within a very short distance of each other. It is believed that in the counties of Keokuk and Mahaska the quantity of molasses manufactured will more than supply the home demand the present year. The thrifty appearance of the cane wherever seen, speaks well for its ultimate success as one of the staple crops of the country.

THE FOURTH DAY.

As we shall be unable to remain longer than to-morrow morning, the proceedings of the last day of the fair must go by default. A programme is laid down, and as the weather promises fair, we have no doubt it will be successfully carried out. At 9 o'clock a sale of stock is to take place, at 10 A. M. a plowing match, and at 1 P. M. a grand procession of a 1" winning animals," on the course; after which, a grand trial of speed of all the horses that may desire to show themselves.

CONCLUSION.

Thus will end the fair of 1858. Taken altogether, and considering the season and location, it has been a decided success. In leaving we would acknowledge the valuable assistance and kind attentions rendered by J. H. Wallace, Esq., Secretary of the Society; J. Bridgman, Esq., Ch of Marshal; Gen. Wilson, formerly of the *Iowa Farmer*; Dr. Beardsley, editor of the Oskaloosa *Herald*, and in general all the officers of the Society and some others.

NOTE.—We have just recovered our utterance enough to say that if "Old Buck" gets after Mister Gilbert, *alias* "Observer," the treatment Columbus received will not be a circumstance to what he will catch.

More Curious Documents—Democracy Ten Years Ago.

In looking over some old papers a few days since, we stumbled upon the following:

"*Resolved*, That while we disclaim any intention of interfering with the compromises of the Constitution, or of infringing upon any of the rights of the States, we must declare, since the crisis has arrived, our uncompromising hostility to the extension of slavery into the territory now free lying between the States and the Pacific. We insist that this extensive domain should be emphatically the 'area of freedom,' and its 'free soil' be tilled by the arm of 'free labor,' enjoying the largest liberty and a commercial intercourse with the world with the fewest possible restrictions.

"*Resolved*, That it is the duty of the Representative to consult the feelings and wishes of the masses he represents, as a guide for his action, and that if those in authority will but do so, they will find on the farms and in the workshops of the country, an undivided sentiment in opposition to the monstrous heresy of modern times, the right of the slaveholder to plant slavery at pleasure in any of the free territory—the common property of the freeman—of this Union, and in favor of preserving for the millions who, by descent and by immigration, under the ample folds of our flag will inhabit the now free Territory of Oregon and Northern Mexico, if slavery is excluded."

Now these will at once be pronounced Black Republican—aye, even Abolition—doctrines, by Mr. Douglas and his admirers. Why, they are as bad as the fraudulent resolutions produced by Douglas at Ottawa. But hold, gentlemen—these resolutions embody Democratic doctrine, adopted unanimously by a Democratic meeting held at Ottawa, La Salle County, February 29th, 1848, and are published in that sound Democratic paper the *State Register* of March 17th, 1848. W. H. W. Cushman, who delivered the address welcoming Senator Douglas to Ottawa on the occasion of the recent visit of the latter to that city, *presided in that meeting*, and WILLIAM OSMAN, present editor of the Douglas paper the *Free Trader*, acted as Secretary.

Verily, Democracy is like the ghost of Hamlet's father—it is a "thing of shreds and patches."—*Morgan Journal.*

The Eighth Congressional District.

The vote of this district in 1856, taking the Presidential vote, as many votes were thrown away in the Congressional, was as follows:

	Dem.	Rep. & Am.
Bond	607	811
Clinton	840	523
Jefferson	1,298	496
Madison	1,451	2,769
Marion	1,150	663
Monroe	900	864
Randolph	1,224	1,255
St. Clair	1,773	2,940
Washington	1,132	827
	10,308	10,768

This exhibits an opposition majority of 460 votes, which has certainly not decreased since that time, with such an unpopular opponent as Mr. Fouke, let a well-known, popular, eloquent candidate take the stump and argue his belief through the length and breadth of the district, and he will hardly fail of success, and in our humble opinion, the Hon. Jehu Baker of St. Clair, is that man. Owing to the large amount of immigration from the Eastern States, we will not fail to elect him by at least fifteen hundred majority over the black-leg, PHILIP BOND FOUKE.—*Salem Independent.*

"Mississippi Bridge at Fulton."

Editors Press and Tribune;

Having received a pamphlet report, entitled "Documents submitted to the Stockholders of of the Galena and C. U. R. R. Co. in relation to leasing the Chicago, Fulton and Mississippi R. R. Bridge to be built at Fulton, to be acted upon by them at a Stockholders' meeting, to be held at Chicago October 6th, and as several articles have already appeared in your paper on this subject, I would like to call the attention of the stockholders to the following views, as any information on this matter of great public interest cannot be superfluous, especially to those who are called together to act at this meeting, either in person or by proxy.

Although the best interests of our road greatly demand a bridge crossing over the Mississippi, yet in view of the magnitude of the enterprise, the opposition it would encounter, and the varied interests to be affected by it, we should exercise all the caution, wisdom and foresight we can command in determining the location of such a structure, and in adopting plans to have it built.

The report referred to gives a decided preference to what it terms the "Saw Mill location," the longest distance to bridge of any, and does not speak of the merits or demerits of any other location, further than to mention that five different points had been surveyed and estimated on, as follows:

Bluff Line, to cost		$528 821
Lyons	"	394,757
Saw Mill	"	340,471
Rock Point	"	457,757
Clinton	"	476,946

Now there is still another point which this report makes mention of, which we will call the *Island* location, as it runs across Little Rock Island just half a mile below the Clinton location noted above. This point is a far better and cheaper location for bridging than any of the points named in the report; besides, it is the *natural, direct or air line* point for our Road to cross the river; for if our Road ran straight through the bluffs (which is quite feasible) it would strike the river at this very point, and with about two miles less distance than it now does. Moreover the Railroad on the other side starts from a point directly opposite to this; hence two miles more would be saved, which, if the bridge was built at the Saw Mill location, it would require to connect the west end of the bridge with that Road, and which two miles of Road the Bridge Company, according to this report, would have to build. *This very saving of four miles and many curves might, in a very few years, prove a great desideratum to our Road.*

It is, therefore, to this, the Island location for bridging, that I wish to call your particular attention. And first, I will state some arguments against the location which this report has adopted, and then some in favor of the Island location.

AGAINST SAW MILL LOCATION.

1st. The channel of the river at this place being of great width, and sandy bottom, is neither straight nor permanently fixed. Indeed, an entire new channel has formed within a few years on the west side, leaving a large sand-bar between it and the main channel, hence placing piers where there is such a broad expanse of sand, particularly the large draw piers in the main channel might so obstruct it as to cause it to change entirely, and thereby ruin the present landing at Fulton, and also the bridge itself.

2d. The place where the draw would be, is one of the worst points on the river for boats to navigate in windy weather, the wind having such a sweep there, strikes with great force. Rafts and steamboats have very frequently been driven ashore in that bend; hence, in windy weather, boats, to say nothing of rafts, would find it extremely difficult, if not impossible, to pass through the draw.

2d. The ice, when breaking up in the Spring, having such a broad sweep, would press with fearful power again the piers.

IN FAVOR OF ISLAND LOCATION.

1st. The river at this point is most admirably adapted by nature for bridging, the distance to bridge being only eighteen hundred feet, and divided by Little Rock Island into two channels, the main or west channel being only seven hundred feet across, straight, and impregnably fixed by rocky shores and bottom, the other channel being shallow and well adapted to bridging at small cost.

2d. The wind being broken off by the adjacent land, has comparatively no force; hence boats would not be delayed from passing the draw by the wind, as at other points.

3d. The bridge would be in no danger from the ice, the islands being an effectual protection.

4th. The great economy of cost in the erection of the bridge at this place over what it would be at the Saw Mill location, or any other point on the river; also the very low price at which the land for the termini of the bridge at the Island location could be obtained, including ample grounds, with good river landing for depot and shipping purposes; whereas at Lyons such grounds cannot be had at all.

5th. In the event that the legal right, which is yet undecided, to bridge the main channel of the Mississippi should not be sustained, the point affords every facility possible for a combined bridge and ferry, as the river could be bridged from the Illinois shore on to Little Rock Island, from whence across the main channel, which never freezes ever here, a ferry capable of taking a train of cars over could be sustained and run at all seasons of the year. This is an important item, as there is not another such available point on the river.

Hence, as deduced from the above—this Island location being in every respect so desirable a point, of having a bridge, or bridge and ferry combined, that might well compete with any bridge in the vicinity, on account of its comparatively small cost and greater eligibility.

Hence I can conceive of no advantage to be derived by our Company in adopting any of the locations named in said report, that would not be equally as well, and probably better, secured, *and at much less expense*, by adopting this Island location instead; and for the present, simply the bridge and ferry combined; for we know that a continuous bridge across the Mississippi, wherever located, will be strenuously opposed by the whole river interest, subjecting its owners to much annoyance, litigation and expense, to say nothing of damages.

But again: This Island location, in point of fact, is the *only central location* of them all calculated to accommodate all the projected roads in this vicinity; and what is still more, the only road as yet on the west side. The Chicago, Iowa and Nebraska, whose eastern terminus is right at this point, and which has now 50 miles of road in operation, is itself so centrally located, that in all probability all the other lines of Road in that part of Iowa will merge.

Hence, will not every stockholder agree with me that our Directors should lose no time in securing this location for their crossing?

A STOCKHOLDER.

Arrival of the Salt Lake Mail.

Gen. Johnston going into Winter Quarters—Great Snow Storms in the Mountains—Great Suffering of Men and Animals.

[From the St. Joseph Journal, Sept. 27.]

The Salt Lake Mail arrived in this city in the afternoon of Saturday, the 25th, in charge of Mr. George W. Constable. The mail left Great Salt Lake City on the 4th of September. All was quiet in the city, with the exception of a few fisticuffs and knock-downs between the Saints and Gentiles.

Gen. Johnston was building a Fort and erecting buildings in Cedar Valley, preparatory for winter quarters. A few of his men were still deserting him.

The heat was very oppressive when the mail party left Salt Lake City, but they were soon to experience very sudden changes. On the evening of the 7th inst., three days out from the city, near the Tar Spring, between Big Mountain and Fort Bridger, snow commenced falling, which continued on through the night, until it fell to the depth of three inches. It all disappeared, however, the next day, but on the 10th inst., the ground was frozen hard enough to bear up the hocks, and ice was seen at least half an inch thick.

In the South Pass, on the 11th inst., another terrific snow storm blew up, which continued on through the day and night, until it fell to the depth of ten or twelve inches.

The suffering among the men and animals was great. A number of oxen, belonging to the train, gave out and froze to death. The Sweetwater Mountains were perfectly white with the snow.

Coming in, small bodies of Indians were seen all along the route, begging and stealing as usual, but otherwise peaceable. Large herds of buffalo were seen near Plum Creek. The herds numbered six or eight thousand. One ox train was met which had lost about eighty head of cattle on account of the buffalo. Going out, near the same place, Mr. Constable says his party had to stand guard one dark stormy night and keep up a constant firing of pistols, guns, muskets, &c., in order to keep the buffalo from running pell mell over them. He says the whole face of the country was perfectly black with them.

Coming in, about eighty ox trains were met. The roads were good and the waters all low.

Cheering News again from the Kansas Mines.

The Kansas City *Journal of Commerce* of the 29th ult. says:

Mr. John Horton arrived in this city yesterday, having left Fort Laramie on the 3d inst. He brings most important and interesting news from the gold mines of the Arkansas, Pike's Peak and Cherry Creek.

All the Indian traders about the Fort, and in the vicinity of Deer Creek, were removing their goods to the mines. He saw at the Fort a Mr. Jackson, who had several hundred dollars worth of the dust. The greatest excitement existed at Fort Laramie.

The mines were poorly provided with breadstuffs, not having over two months' supplies on hand. They were also entirely destitute of mining tools. Picks and shovels were worth their weight in gold—in fact, they could not be had at any price.

There was not a rocker in the mines, and no sheet iron with which to make riddles.

Mr. Benjamin Clemmore is now coming in, and will be here in eight or ten days, bringing some five hundred dollars of the gold, which be obtained in about two weeks, without any tools.

There are now about 250 men in the mines, most of whom are engaged in prospecting Cherry Creek and in the vicinity of Medicine Bow. Seven men worked two weeks and made $500, with nothing but pans. These are, in short, the particulars furnished us by Mr. Horton, who is a man well known to every business man in this city. This is certainly the most gratifying intelligence that we have published for several weeks, and it is more cheering, inasmuch as it comes from a man we all know, and upon whose word we can rely.

☞ As the officers of the U. S. Arsenal at Frankford, Penn., were testing, on Thursday last, a mortar loaded with one ounce of powder and a twenty-four pound ball, Mrs. Pigot, the wife of the Superintendent of the Arsenal, passed within range at a distance of about one hundred yards just as the piece was discharged, and was killed.

Personal and Political.

At a meeting in the Toledo Congressional District the other day, Gen. Ashley, the Republican candidate, being interrupted by a notorious bully, and called a liar, caned the disturber soundly.

—It is said that ex-Mayor Wood of New York having been used up in the State Convention, is in Washington, applying for the Governorship of Nebraska.

—The Boston *Christian Era* says the Boston Baptist ministers have not refused to exchange with Mr. Kalloch. The Tremont Temple building does not belong to the Baptist churches of Boston. The trustees of the Temple do not object to his settlement.

—The Jews of Norfolk are forming a military company, to be called the Israelite Guards.

Railway Matters.

SALE OF THE WATERTOWN AND MADISON RAILROAD.—The Madison *Journal* of the 2d says:

The Watertown and Madison Railroad was sold on yesterday in this city under a foreclosure of the first mortgage, to Hon. Russell Sage, of Troy, N. Y. He proposes to commence work upon the line immediately and complete it up to Waterloo this fall. The whole road is to be finished in season for the fall trade next year. The interests of the interior of the State are largely identified with this work, and the news of the resumption of the work will be hailed with gratification by thousands.

MILWAUKEE AND MISSISSIPPI RAILROAD.—The receipts on the Milwaukee and Mississippi Railroad, for the month of September, just closed, are as follows:

Passengers	$55 092.38
Freight	67,009.97
Total	$122,092.35

This is about $15,000 larger than the estimated receipts, and a handsome improvement on last year.

MINNESOTA STATE BONDS.—One million eight hundred thousand dollars of the State bonds, to be issued for railroad purposes, have been received by the Governor. Messrs. Huff, Harmon and Smith, and a number of other gentlemen who represent the interests of the Transit Railroad, are in town to receive the first sum to which that road is entitled, having finished eighteen continuous miles of said road.—*St. Paul Times.*

KENOSHA AND ROCKFORD ROAD.—We are assured that the Kenosha and Rockford Road will reach the bank of Fox River to-morrow (Friday). The laying of the track will be delayed a few days at that point, until the completion of the Fox River bridge.—*Kenosha Trib. 30th ult.*

Minnesota State Telegraph Company.

A company for the purpose of putting up a telegraph line from Minneapolis and Saint Anthony via St. Paul to La Crosse, has been formed in this city. The following Directors were elected: Alex. Ramsey, Wm. L. Banning, John Nininger, J. H. Stewart, J. Jay Knox, Theodore, French, J. C. Burbank, and Jos. S. Cook. At a meeting of the Directors, Gov. Ramsey was elected President; J. C. Burbank, Vice President; Wm. L. Banning, Treasurer; and Robert F. Fisk, Secretary. Arrangements are being completed to have the line finished to La Crosse by the first of December. It is believed that it will cost not more than $40,000 to put the entire line in order. Nearly half of that sum will be raised in this city.—*Minnesotian.*

The Canvass in Ohio.

The Cincinnati *Gazette*, of the 7th inst., says:

We enter upon the last week of the canvass with the most flattering prospects of success. The progress that has been made so far has discouraged the Lecomptonites and filled the Opposition with the most confident assurances of a complete and triumphant victory. Another week of hard work will secure a round majority for the People's ticket.

The Gold Excitement in Nebraska.

Our Nebraska exchanges represent the gold fever as having reached a very active stage, carrying off companies from all the principal towns in the Territory. Some of the companies are provisioned for six months, and all are sanguine of success. A letter to the Omaha *Times* says that from four to six hundred men were at work on Cherry Creek, and all doing well.

UNIFORMITY OF TEXT BOOKS
FOR THE SCHOOLS OF ILLINOIS, WISCONSIN and Iowa. Books published by
S. C. GRIGGS & CO.,
39 and 41 Lake street.
1st—SANDERS' SERIES OF READERS AND SPEAKER—11 Books.
Distinguished for their strictly progressive character, and practical adaptation to the young. They have been officially adopted by the State Superintendent of Schools in most of the States which have selected a uniform series, by hundreds of Town and County Superintendents in other States; are in use in the principal cities, and in more than ten thousand schools in the United States and Canada, and are selling at the rate of more than a million copies a year.
2d—THOMSON'S SERIES OF ARITHMETICS AND MATHEMATICS—10 Books.
This series has an eminently practical character, and is distinguished by a judicious union of the inductive and synthetic modes. Intelligent and decisive recommendations have been given by hundreds of teachers in the Union, among whom are Superintendents of several States which have adopted a uniform series, and many others. The sale is over 100,000 a year, and rapidly increasing.
3d—WILLSON'S SERIES OF HISTORIES—5 Books.
These are the only complete graded system of Histories for Schools ever published. They have been received with universal commendation by Teachers, have been recommended by upwards of fifty Presidents and Professors of Colleges in different parts of the United States; by over three hundred Principals of Academies, &c., and by a majority of the School Commissioners of the State of New York.
4th—FASQUELLE'S FRENCH SERIES—10 Books.
These works combine the two rival systems, the oral (adopted by Ollendorff, Robertson and Manesca and Old Classical or Grammatical, and are constructed on the plan of "Woodbury's Method with the German." The Reading Books are selected from the best French authors, carefully edited, with copious notes and references, and neatly executed. The "Course" has had a success unrivalled in America, having passed through some fifty editions, and been re-published in England. Teachers of the French Language everywhere receive these works with great cordiality and unanimity. They are already the leading French Text-Books in the New England States, New York, New Jersey, and the North-Western States, and are rapidly gaining ground everywhere.
5th—WOODBURY'S GERMAN SERIES—9 Books.
Professor Schmidt, of Columbia College, says:—"The 'Method' is truly admirable, and with willing learners can not fail to accomplish the most satisfactory results." Professor Torricelli, of Dartmouth College, says: "Having for the last two years used it in the College and in the Female Seminary in this place, I find that nothing better can be desired. No German teacher will hesitate to adopt it in preference to all others." Rev. Dr. Nast, editor of Der Christliche Apologete, Hon. S. Allen, Commissioner of Rhode Island, President Allen, Girard College, and other well known teachers, have also commended the "Method" or other portions of the Series.

DR. MANN'S
AGUE BALSAM,
UNRIVALLED IN THE
HISTORY OF MEDICINE.
WHY? BECAUSE SINCE THE FIRST settlements of the rich prairies and fertile valleys of the West, it has been the great study of all Physicians to produce a perfect cure for ague, fever, and all billious diseases, so thoroughly prevalent and so fearfully fatal in their results. The mineral and vegetable kingdoms have heretofore been ransacked in vain except for remedies only partially successful, but this is entirely curable and will never fail. Reader, we defy you to find a case so obstinate that this Mann's Ague Balsam will not cure; we do not hesitate to say that the remedy so long sought has at length been found that will never fail. See the following:
Oberlin, Ohio, June 1st, 1858.
Messrs. S. K. Mann & Co.—Gents: Having had occasion to use some of your Ague Balsam in my family, I find it a certain cure of ague and efficient remedial agent for the most prompt and, and as a strengthening tonic I think it has no equal. Your obd't Serv't,
SAM'L HENDRY
Olney, Ill., September 30, 1857.
Messrs. S. K. Mann & Co.—Gents: Your Ague Balsam is the only remedy that seems to meet the wants of the people of this locality. We have, upon our shelves, the popular remedies of the day for the cure of intermittents, but Dr. Mann's Balsam sells in preference to all others, from the simple fact that it cures. It is destined to excel all other remedies ever offered. Truly Yours,
G. W. HAYES.
Dr. Mann & Co., Gallon, Ohio—Gents: Your Ague Balsam is the people's own remedy, in this part of the country, for the cure of ague and fever. We have never known it to fail in any case when properly used. It is looked upon as a perfect antidote to malarious diseases.
Very Truly Yours, REED & PETTJOHN.
Cairo, Ill., May 15th, 1858.
Seymour, Ind., April 26, 1858.
Messrs. S. K. Mann & Co., Gallon, Ohio—Gentlemen: I would say for the benefit of all concerned, that I have a little daughter, about six years of age, that has had the chills ever since last fall; we could do nothing with it till we received your Balsam. We commenced giving it according to directions and are happy to state that she has not had a chill since she commenced taking it. I shall use my exertions in the bounds of my influence to give your Balsam a circulation.
Respectfully Yours, N. P. EDWARDS.

Dr. Christie's Ague Balsam.
THE GREATEST MEDICAL DISCOVERY OF THE AGE.
DR. CHRISTIE'S AGUE BALSAM is the best remedy for the permanent cure of Chills and Fever, Fever and Ague, Dumb Ague, and all malarious diseases incident to the climate.
DR. CHRISTIE'S AGUE BALSAM has never been known to fail where the directions have been strictly followed.
DR. CHRISTIE'S AGUE BALSAM is a
PURELY VEGETABLE COMPOUND,
Containing neither Arsenic, Quinine, Strychnine, or anything of a poisonous or deleterious nature.
DR. CHRISTIE'S AGUE BALSAM has had for years the largest sales of any remedy for a specific disease ever offered to the public.
DR. CHRISTIE'S AGUE BALSAM has attained its immense popularity through its own merits, its great power in curing disease, its singular harmlessness and freedom from hurtful ingredients. It can be taken by the sick infant, vigorous youth and feeble age, ever without injury, and always with benefit.
READ WHAT AGENTS SAY.
Dr. H. Symmes, of Mattoon, Ill., under date of Aug 2d, 1858, says:—"Send me another lot of Christie's Ague Balsam as I have but two bottles in store, and the demand is on the increase. I am insuring every bottle, as yet, none have been returned."
J. W. Plummer, Druggist, Vinton, Iowa, under date of Aug. 24th, 1857, writes:—"Send me half a gross of Christie's Ague Balsam; I have but three bottles on hand and it is selling rapidly. It is the best remedy for Ague I have ever sold."
Mr. A. N. Blackledge, of Metamora, Ind., writes us June 12, 1857, and says that the Balsam has cured in every case where taken. He further says Wm. Swigert, who had the Ague chills for twenty months. He insisted three bottles to cure him. He took only one bottle and the result was a permanent cure. He had paid about $60 doctor bills.
AFFLICTED FOR YEARS.
Delphos, O., Jan. 13, 1858.
Messrs. Hunt & Gardner—Gents:—I wish to make known to the public an article from which I have derived more benefit than from all other medicines which I have ever used. I have been suffering from Fever and Ague and its effects, for the last five years, during which time I have scarcely enjoyed a day of good health, until I procured from your drug stores a bottle of Dr. Christie's Ague Balsam. In a few days I found myself clear of ague and rapidly recovering in health. I have not felt a symptom since I commenced taking it, (about three months,) although constantly exposed to cold weather. To my friends and the public generally, suffering from this disease, I would say, procure a bottle and save health, constitution, and money.
Yours, J. B. GROSCOST.
Above are only a few testimonials in favor of CHRISTIE'S AGUE BALSAM, but space forbids our publishing more. Price $1 per bottle, or $6 for six bottles for $5.

THE LIVER INVIGORATOR
PREPARED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,
IS ONE OF THE BEST PURGATIVE and LIVER MEDICINES now before the public.
LIVER INVIGORATOR.
These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.
Billious attacks are cured, and, what is better prevented by the occasional use of the Liver Invigorator.
One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.
Only one dose taken before retiring, prevents nightmare.
Only one dose taken at night, loosens the bowels gently, and cures costiveness.
One dose taken after each meal will cure Dyspepsia.
One dose of two teaspoonfuls will always relieve Sick Headache.
Only one dose immediately relieves Colic, while
One dose often repeated is a sure cure for Cholera Morbus, and a preventative of Cholera.
Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.
One bottle taken for Jaundice removes all sallowness or unnatural color from the skin.
One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.
One dose, often repeated, cures Chronic Diarrhoea in its worst forms, while Summer and Bowel Complaints yield almost to the first dose.
A few bottles will cure Dropsy by exciting the absorbants.
We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Billious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.
ALL WHO USE IT ARE GIVING THEIR UNANIMOUS TESTIMONY IN ITS FAVOR.

THE PREPARATORY DEPARTMENT of Lind University will be opened for the reception of Students on the 25th day of November next. The Trustees have engaged as Principal of the Institution SAMUEL F. MILLER, A. M., a graduate of Amherst College, a highly accomplished scholar and an experienced teacher. NATIONAL REPUBLICAN PLATFORM.

Adopted in National Convention, held at Philadelphia, June 17, 1856.

This Convention of Delegates, assembled in pursuance of a call addressed to the people of the United States, without regard to past political differences or divisions, who are opposed to the repeal of the Missouri Compromise, to the policy of the present Administration, to the extension of slavery into free Territory; in favor of admitting Kansas as a free State, of restoring the action of the Federal Government to the principles of Washington and Jefferson, and who purpose to unite in presenting candidates for the offices of President and Vice-President, do resolve as follows:

Resolved, That the maintenance of the principles promulgated by the Declaration of Independence and embodied in the Federal Constitution is essential to the preservation of our Republican institutions, and that the Federal Constitution, the rights of the States and the union of the States shall be preserved.

Resolved, That with our Republican fathers we hold it to be a self-evident truth, that all men are endowed with the inalienable rights to life, liberty, and the pursuit of happiness, and that the primary object and ulterior designs of our Federal Government were to secure these rights to all persons within its exclusive jurisdiction; that, as our Republican fathers, when they had abolished slavery in all our national Territory, ordained that no person should be deprived of life, liberty or property without due process of law, it becomes our duty to maintain this provision of the Constitution against all attempts to violate it for the purpose of establishing slavery in any Territory of the the United States, by positive legislation, prohibiting its existence or extension therein. That we deny the authority of Congress, of a Territorial Legislature, of any individual or association of individuals, to give legal existence to slavery in any Territory of the United States, while the present Constitution shall be maintained.

Resolved, That the Constitution confers upon Congress sovereign power over the Territories of the United States for their government, and that in the exercise of this power it is both the right and the duty of Congress to prohibit in the Territories those twin relics of barbarism—polygamy and slavery.

Resolved, That while the Constitution of the United States was ordained and established by the people in order to form a more perfect Union, establish justice, insure domestic tranquility, provide for the common defence, and secure the blessings of liberty, and contains ample provisions for the protection of the life, liberty and property of every citizen, the dearest constitutional rights of the people of Kansas have been fraudulently and violently taken from them—their Territory has been invaded by an armed force—spurious and pretended legislative, judicial and executive officers have been set over them, by whose usurped authority, sustained by the military power of the Government, tyrannical and unconstitutional laws have been enacted and enforced—the rights of the people to keep and bear arms have been infringed—test oaths of an extraordinary and entangling nature have been imposed, as a condition of exercising the right of suffrage and holding office—the right of an accused person to a speedy and public trial by an impartial jury has been denied—the right of the people to be secure in their persons, houses, papers and effects, against unreasonable searches and seizures has been violated—they have been deprived of life, liberty and property without due process of law—that the freedom of speech and of the press has been abridged—the right to choose their representatives has been made of no effect—murders, robberies and arsons have been instigated and encouraged, and the offenders have been allowed to go unpunished—that all these things have been done with the knowledge, sanction and procurement of the present Administration, and that for this high crime against the Constitution, the Union and Humanity, we arraign the Administration, the President, his advisers, agents, supporters, apologists and accessories, either before or after the facts, before the country and before the world, and that it is our fixed purpose to bring the actual perpetrators of these atrocious outrages, and their accomplices, to a sure and condign punishment hereafter.

Resolved, That Kansas should be immediately admitted as a State of the Union, with her present free Constitution, as at once the most effectual way of securing to her citizens the enjoyment of the rights and privileges to which they are entitled, and of ending the civil strife now raging in the Territory.

Resolved, That the highwayman's plea that "might makes right," embodied in the Ostend Circular, was in every respect unworthy of American diplomacy, and would bring shame and dishonor upon any government or people that gave it their sanction.

Resolved, That a railroad to the Pacific Ocean, by the most central and practicable route, is imperatively demanded by the interests of the whole country, and that the Federal Government ought to render immediate and efficient aid in its construction; and as an auxiliary thereto, the immediate construction of an emigrant route on the line of railroad.

Resolved, That appropriations by Congress for the improvement of rivers and harbors, of a national character, required for the accommodation and security of our existing commerce, are authorized by the Constitution, and justified by the obligation of government to protect the lives and property of its citizens.

Resolved, That we invite the affiliation and co-operation of freemen of all parties, however differing from us in other respects, in support of the principles herein declared; and, believing that the spirit of our institutions, as well as the Constitution of our country, guarantee liberty of conscience and equality of rights among citizens, we oppose all legislation impairing their security.

REPUBLICAN PLATFORM.

Adopted at Bloomington, Illinois, May 28th, 185 1856

WHEREAS, The present Administration has prostituted its powers, and devoted all its energies to the propagation of Slavery and to its extension into territories heretofore dedicated to Freedom, against the known wishes of the people of such Territories, and to the suppression of the freedom of speech and of the press, and to the revival of that odious doctrine of constructive treason, which has always been the resort of tyrants and their most powerful engine of injustice and oppression; And, whereas, we are convinced that an effort is making to subvert the principles and ultimately to change the form of our Government, and which all patriots who love their country and the cause of human freedom should resist: Therefore,

Resolved, That, foregoing all former differences of opinion upon other questions, we pledge ourselves to unite in opposition to the party which upholds and supports it, and to use all honorable and Constitutional means to wrest the government from the unworthy hands which now control it, and to bring it back in its administration to the principles and practices of Washington, Jefferson and their great and good compeers of the Revolution.

Resolved, That we hold, in accordance with the opinions and practices of all the great statesmen of all parties for the first sixty years of the administration of the Government, that, under the Constitution, Congress possesses full power to prohibit slavery in the Territories, and that, while we maintain the Constitutional rights of the South, that justice, humanity, the principles of freedom, as expressed in our Declaration of Independence and our National Constitution, and the purity and perpetuity of our Government, require that that power should be exerted to prevent the extension of slavery into Territories heretofore free.

Resolved, That the repeal of the Missouri Compromise was unwise, unjust and injurious—an open and aggravated violation of the plighted faith of the States—and that the attempts of the present administration to force slavery into Kansas against the known wishes of the legal voters of that Territory, is an arbitrary and tyrannous violation of the right of the people to govern themselves, and that we will strive, by all Constitutional mean, to secure to Kansas and Nebraska the legal guaranty against slavery of which they were deprived at the cost of the violation of the plighted faith of the nation.

Resolved, That we are devoted to the Union, and will, to the last extremity, defend it against the efforts that are now being made by the disunionists of the Administration to compass its dissolution, and that we will support the Constitution of the United States in all its provisions, regarding it as the sacred bond of our Union, and the only safeguard for the preservation of the rights of ourselves and posterity.

Resolved, That we are in favor of the immediate admission of Kansas as a member of this confederacy, under the Constitution adopted by the people of said Territory.

Resolved, That the spirit of our institutions as well as the Constitution of our country guarantees the liberty of conscience as well as political freedom, and that we will proscribe no one, by legislation or otherwise, on account of religious opinions, or in consequence of place of birth.

Resolved, That in LYMAN TRUMBULL, our distinguished Senator, the people of Illinois have an able and consistent exponent of their principles, and that his course in the Senate meets with our unqualified approbation.

REPUBLICAN PLATFORM OF ILLINOIS

Adopted at the Republican State Convention held at Springfield, June 16, 1858.

We the Republicans of Illinois in Convention assembled, in addition to our previous affirmations, make the following declaration of our principles:

1. We reaffirm our devotion to the Constitution of the country and to the union of the States, and will steadily resist all attempts for the perversion of the one, or the disruption of the other. We recognise the equal rights of all the States, and avow our readiness and willingness to maintain them, and disclaim all intention of attempting, either directly or indirectly, to assail or abridge the rights of any of the members of the confederacy guaranteed by the Constitution, or in any manner to interfere with the institution of Slavery in the States where it exists:—Nevertheless, we hold that the Government was instituted for freemen, and that it can be perpetuated, and made to fulfil the purposes of its organization only by devoting itself to the promotion of virtue and intelligence among its citizens, and the advancement of their prosperity and happiness; and to these ends, we hold it to be the duty of the Government so to reform the system of disposing of the public lands as to secure the soil to actual settlers, and wrest it from the grasp of men who speculate in the homes of the people, and from corporations that lock it up in dead hands for enhanced profits.

2. Free Labor being the only true support of Republican institutions, our Government should maintain its rights, and we therefore demand the improvement of our harbors and rivers which freight the commerce of the West to a market, and the construction of a central highway to connect our trade with the Pacific States, as rightful encouragement to home industry; and, inasmuch as we now compete in the markets of the whole country against the products of unpaid labor at depreciating prices, it is therefore eminently unjust that the National Administration should attempt by coercion to extend a servile system in the Territories, or, by patronage, to perpetuate Slavery in the States.

3. The present Administration has proved recreant to the trusts committed to its hands, and by its extraordinary, corrupt, unjust and undignified exertions to give effect to the original intention and purpose of the Kansas-Nebraska bill, by forcing upon the people of Kansas against their will, and in defiance of their known and earnestly expressed wishes, a Constitution recognizing slavery as one of their domestic institutions, it has forfeited all claim to the support of the friends of free men, free labor, and equal rights.

4. It is the duty of the Government, faithfully and diligently, to execute all our treaty stipulations, and to enforce all our laws for the suppression of the Slave Trade.

5. That while we deprecate all interference on the part of political organizations with the action of the Judiciary, if such action is limited to its appropriate sphere, yet we cannot refrain from expressing our condemnation of the principles and tendencies of the extra-judicial opinions of a majority of the Judges of the Supreme Court of the United States, in the matter of Dred Scott, wherein the political heresy is put forth that that the Federal Constitution extends Slavery into all the Territories of the Republic, and so maintains it that neither Congress nor the people, through their Territorial Legislature, can by law abolish it. We hold that Congress possesses sovereign power over the Territories, whilst they remain in a territorial condition; and that it is the duty of the General Government to protect the Territories from the curse of slavery, and to preserve the public domain for the occupation of free men and free labor. And we declare that no power on earth can carry and maintain slavery in the States against the will of the people and the provisions of their constitutions and laws; and we fully indorse the recent decision of the Supreme Court of our own State, which declares "That "property in persons is repugnant to the Con"stitution and laws of Illinois, and that all per"sons within its jurisdiction are supposed to be "free; and that slavery, where it exists, is a "municipal regulation, without any extra-terri"torial operation.

6. The policy of this Government should be to live on terms of peace and amity with all the nations of the earth, so far as it can be done consistently with our national honor and interests, and to enter into entangling alliances with none. Our intercourse with other nations should be conducted upon principles of exact and exalted justice; and whilst firmly maintaining our own rights we should carefully avoid any invasion of the rights of others, and especially those of weaker nations. Our commerce ought to be protected from wanton interruption, and our commercial marine from invasion and search; and while we would deplore the necessity of war with any of the nations of the earth, we will still firmly, zealously and patriotically sustain the Government in any just measures which it may so adopt to obtain redress for indignities which may heretofore have been inflicted upon our citizens navigating the seas or which may be necessary to secure them against a repetition of like injuries in the future.

7. We view with regret and alarm the rapidly increasing expenditures of the General Government, which, now in a state of profound peace, threaten the country with national bankruptcy; and we pledge ourselves, as far as we can speak for the Republicans of Illinois, to a thorough and radical reform in the administration of the Government finances, in the event that the Republicans are entrusted with the care of national affairs.

The Burning of the Austria—Further Incidents.

John Palicrusa, a native of Turkey, but for several years resident in this country, was a passenger on the Austria, and relates several touching incidents. We quote from his account:

At the time of the explosion, which increased the fright and confusion, he saw the French ship in the distance, whose captain, as he saw them, immediately made all sail to reach them. Soon after the foremast fell with a terrible crash, and hung over the side, beating against the vessel with heavy blows. The second mast followed, and as the ship turned a little, the flames swept the length of the deck, forcing the passengers forward, over the sides and out on the bowsprit. He saw one gentleman and lady jump overboard with their clothes all in a blaze. In order to get out of the reach of the flames, which were every moment coming nearer and nearer, he took a piece of rope of some three yards in length, and letting himself down, fastened himself to the forechains underneath the bowsprit, where he hung some three or four hours, waiting for the French vessel to come near enough to reach him.

As the flames increased, the poor, miserable creatures on the bowsprit jumped into the water as their clothes caught on fire—dropping into the water, as Mr. Palicrusa says, "like drops of rain in a heavy shower." One woman, with two daughters, kissed them both, and then putting her arms around them, all three jumped into the water. An English lady, who came on board at Southampton with her husband, had three children with her—a girl about five years old, a boy about three, and a babe in her arms. The husband had just jumped over, and as the flames grew hotter and burned more fiercely, she took her little girl, kissed her, and threw her into the water. She then took the boy, a fair, healthy, little fellow, embraced him, gave him her last kiss, and threw him in. He struck on his back and struggled very hard, rising three separate times, calling out "Mamma" each time, in the most piteous tones, and then sunk to rise no more. The poor woman then clasped her babe to her breast and jumped in with it; kissing it repeatedly, they sunk to the bottom.

A young man who was in the second cabin, and who said he was going to California where he had a brother, had a sister with him, a girl sixteen or seventeen years of age. In order to save her from the fire he fastened a rope around her body, and making one end fast to the deck, let her down over the side of the vessel. He then put another rope around his own body and let himself down; but the rope was not well fastened, and as he jumped over it slipped from under his arms and caught him round the throat. As he struck the water the waves dashed him against the vessel's side, and falling back again he was quickly choked to death; his sister shrieking, "Help! help! will nobody help my brother?" Mr. Palicrusa says when he left the vessel the poor girl was hanging there, screaming and crying, with the waves dashing the dead body of her brother against her every few moments. An Englishman about fifty years of age, who came on board at Southampton with his wife, crawled with her out on the bowsprit as far as they could, and as the flames approached they clasped their arms around each other with one last kiss, jumped into the water and sank immediately. And so brothers and sisters, fathers and sons, mothers and daughters, embracing each other, jumped into the waves. When the first boat from the Maurice came within about half a mile of the Austria, Mr. Palicrusa jumped into the water and swam toward it and was the first man picked up.

Incidents of the Latest California Duel.

The duel between George Penn Johnston, Clerk of the U. S. Circuit Court, San Francisco, and W. I. Ferguson, Senator for Sacramento, was fought at Angel Island, on the 21st of August, in the presence of about one hundred friends and acquaintances. It grew out of political bantering in the bar room of the Bank Exchange, in which the name of Mrs. Gwin, wife of the Senator G., was introduced by Ferguson. The fight came off in the afternoon, two days after, the challenge having been given by Johnston the next day. On the ground Johnston won the word and place, and had the wind in his favor, and Ferguson won the choice of pistols. Distance ten paces. At the first fire both pistols were discharged simultaneously, but neither party was hit. Second fire, distance shortened to six paces. Both fired in a hurry and too low, and the shots fell short, ploughing the ground. Ferguson pointing to Johnston's shot, jocosely said—"There you are." Johnston replied, pointing to both—"Poor shots—I am here, and you are there." Third fire—Ferguson fired at the word, and missed. He then braced himself up to receive Johnston's shot, remarking, "I'm a gone community!" Johnston took deliberate aim and fired at the word "two," grazing Ferguson's whiskers. Ferguson felt the shot, and started as if he had realized the fact that he was "a gone community," and fell into his second's extended arms. Johnston looked vexed at the incomplete result. Terms of apology were now discussed but could not be settled.

Ferguson lost his temper, turned pale, and instructed his second to inform the other party that they would oblige him by continuing to reload and fire without interruption. Fourth fire—Ferguson's right thigh bone broken, and Johnston hit on the left wrist, and a button cut off the front of his pantaloons. After Johnston's wound was dressed, he shook hands with Ferguson saying, "Uncle Ferg., I'm d——d sorry for you, and I'm perfectly satisfied." Ferguson replied, "That's all right." Johnston in walking away, said, "I'm sorry, very sorry, that's the frozen truth."

THE KANSAS CITY REAL ESTATE Association will offer at Public Sale to the highest bidder
SIX HUNDRED LOTS
IN KANSAS CITY, MO.,
THE METROPOLIS OF THE FAR WEST!
Commencing WEDNESDAY, October 20, 1858, and continuing three days.

No city in the West combines greater or more varied advantages, Commercial, Agricultural and Manufactural, and few places present instances of such rapid development.

THE GEOGRAPHICAL CENTER OF THE UNION!

Kansas City is situated at and below the Mouth of the Kansas River, *on the Great Angle of the Missouri River,* where that stream changes its course for the east after flowing southward more than two thousand miles, leaving Kansas City the nearest point on navigable water to a region the most fertile in the world, and more extensive than the States of Missouri, Iowa, Illinois, Indiana and Ohio combined.

RAPID GROWTH OF KANSAS CITY.

An insignificant "landing" for Westport and Independence in 1855 with a few hundred inhabitants—Kansas City in 1858 contains a population of 7,000, and at no previous time were so many, and extensive improvements in progress.

ITS COMMERCE WITH THE TERRITORY AND THE GREAT PLAINS.

The commerce of Kansas City is commensurate with its unrivaled advantages as the gateway of the Territory of Kansas, and the Metropolis of the Plains. The statistics of its trade compiled from the books of its merchants show for its business for 1857

Over Six Millions of Dollars!

This immense trade which exceeds that of any other city of the same population in the United States embraces sales and imports to the Territory of Kansas, New Mexico, the Indian country, Southwestern Missouri, and the regions lying at the base of the Rocky Mountains.

NATURAL RAILWAY CENTER.

The terminus of the Pacific Railroad, from St. Louis, has recently been located at Kansas City, and the prospect is certain of its completion in less than two years. Charters have also been obtained for roads to connect Kansas City with the great systems of Eastern Railways, stretching westward, from Chicago on the northeast to Memphis on the southeast. These Railways will converge at nearly equal distances at the mouth of Kansas River. Kansas City is manifestly the natural starting point of the Great Central Railroad to San Francisco, and as the farthest western central point of Steamboat navigation, it must become the Railroad focus of the broad and fertile lands beyond.

TERMS OF SALE.—One-third in hand, the balance in one, two and three years, with six per cent. interest per annum.

All letters desiring further information will meet with prompt attention if addressed to the Secretary of the Association.
J. LYKINS,
President Kansas City Real Estate Association.
H. H. King, Secretary. se15-1md&w-a849

Oysters,

Telegraph News by the Atlantic Cable.

THE OYSTER SEASON IN ENGLAND has commenced and the honorable Lords and Cockneys of Her Majesty's realm were, as they supposed, regaling their palates with the best of the Bivalves that either hemisphere afforded. But they have found out their mistake, and the Copper Flavored Oysters of Great Britain are in no demand, they cannot be given away. This revolution was caused by the advent of a few cases of Hatch, Mann & Co.'s celebrated Baltimore Oysters in the London market, which had been ordered by Steamer to be used in the Festivities of the Celebration. Messrs. Hatch, Mann & Co. have opened their Great Western Wholesale Depot at No. 139 North Water street (between Clark and Lasalle streets, in Abby & Co.'s Stoneware Depot), where can be found in their season Shell and Can Oysters, fresh from their beds, and received daily by Express. Also Spiced and Hermetically Sealed Oysters constantly on hand.

The reputation that H. M. & Co.'s Oysters have acquired in every market during the past four years is a sufficient guarantee that they cannot fail to give satisfaction superior to all others now in market.
☞ All orders will receive prompt attention.

Weekly Review of Commercial and Money Matters.

TUESDAY EVENING, Oct. 5.

MONEY, &c.—The week closing to-day has been a "hard" one in money matters. To-day has been the closest the bankers have seen for currency since the 4th of October a year ago, when two of our banks failed. The payments of the 4th drained several of our bankers of almost their entire deposits, and there was considerable "shinning" performed by all classes of the commercial community. Eastern Exchange is scarce and firm at 1 per cent. prem. The supply of gold is very light—our city being constantly drained to supply new banks starting in Iowa under the new banking law of that State.

There is a scarcity of Eastern Exchange in Cincinnati. The *Gazette* of yesterday says:

> We make no change in our Exchange quotations, but it is proper to remark with reference to the buying rates, that 15, 20 and 25 cents on the $100 were frequently paid by dealers for New York checks, and the bulk of the business in Philadelphia, Baltimore and Boston drafts, was transacted at ¼ prem. There is a continued good demand for New Orleans sight, which is scarce, and held at 1 prem., for bankers' signatures. Bills were in good demand at 1@1¼ discount for 60 day paper. Southern were, if anything, more sought after than Eastern, and strictly first class names passed rapidly at our inside quotations.

The same paper states as follows, with regard to silver in circulation:

> The market is largely supplied with silver, for which there is little or no demand. Efforts have been made, without success, to induce manufacturers to use silver instead of small notes, in paying hands. A circulation might be obtained for it in this way, perhaps, if bankers would agree to receive it on deposit at par, or in other words, if they would consent to place it on a level with bank notes. It is now apparent, that in order to make silver available as a circulating medium, Government will be compelled to advance the standard.

The N. Y. *Evening Post*, with regard to Land Warrants, says:

> The land warrant market is very flat, and a number of the brokers refuse to buy. The postponement of the Nebraska and Kansas land sales has driven large quantities to this city. There is little use for warrants at present, except for pre emption purposes. The prospect now is, judging from the freeness with which the western speculators are unloading themselves, that there will be very little doing in them until the return of spring.

COMMERCIAL.—Since our last weekly review the weather has been highly favorable for the Corn crop, and we have been receiving cheering intelligence with reference to it from all parts of this State, Iowa and Wisconsin. We had a slight touch of frost last night; but it is generally supposed that the Corn is too far advanced to be materially affected by it. As to the extent of the Corn crop, we hear a variety of opinions; but they generally lead to the belief that it will be hardly an average one. The quality, however, will doubtless be much better than the last year's crop.

During the past week the receipts of Breadstuffs have been 678,400 bushels of all kinds of grain, and 14,981 bbls flour. Compared with the previous week, there has been a falling off in Corn, Barley and Flour, but there is a large increase in the receipts of Wheat. The receipts of the two weeks compare as follows:

	Last Week.	Prev's W'k.
Flour, bbls	14,981	16,422
Wheat, bu	406,406	29?,189
Corn, bu	236,560	279,835
Oats, bu	18,300	16,374
Rye, bu	3,186	2,177
Barley, bu	13,886	17,168

As in the receipts, there has been a falling off in the shipments of corn, and an increase in those of wheat and flour. The shipments of the two weeks compare thus:

	Past Week.	Prev's W'k.
Flour, bbls	15 273	8,462
Wheat, bu	424,987	273,412
Corn, bu	176,022	278,295
Oats, bu	24 431	26,554
Rye, bu	5,000	....

As may be seen by referring to a table in a subsequent column, the great bulk of the wheat shipped during the past week was No. 2 Spring.

The total Exports of Breadstuffs from this port since the 1st of January, as will be seen by the tables which follow, foot up, 15,455,332 bushels grain, and 301,020 barrels flour—or with flour reduced to grain, a total of 16,960,452 bushels—against 12,375,806 bushels grain (and flour reduced) shipped up to the same date in 1857.

The shipments of Grain and Flour (reduced) from the other ports on this Lake—from Milwaukee, Racine, Waukegan, Kenosha, Sheboygan, Michigan City, &c., foot up about 8,000,000 bushels, which added to that shipped from Chicago, makes a total of TWENTY-FIVE MILLION *bushels of Grain exported from Lake Michigan ports during the present season.*

The prices of produce in Chicago on the 1st of October, compared with the prices of the three former years, on the same date, will be found in the following table:

PRICES OF PRODUCE IN CHICAGO ON THE 1ST OF OCTOBER FOR FOUR YEARS.

	1858.	1857.	1856.	1855.

The following table shows the prices of Breadstuffs in the New York market on the 1st of October, for four years:

From the above tables it will be seen that prices do not differ greatly from those of last year at this time; but they are considerably below the figures of the two previous years—1855 and 1856.

Since our last weekly review we have had quite a succession of falling markets in nearly all kinds of Breadstuffs. We have had two foreign arrivals—the *Arabia* and the *Arago*, both of which brought a decline in the European markets, and tended very much to depress this.

The Flour market during the week has been dull and languid, and prices have declined 20@30c in shipping brands of Extra and Superfine. The sales of the week have ranged as follows: Spring Extras, opening at $4.25@4.50—closing $3.87½@4 20; Superfine, opening at $3.50@3.75—closing at $3@3.50.

The Wheat market during the past week has sufferep a decline in nearly all grades of 7@10c. The sales of the week have averaged about 75,000 bushels per day. The decline has been: on the 30th ult., (with the *Arabia's* news) the decline was 1@1½c; on the 1st inst., 2@3c; on the 2d inst., 1c; on the 4th inst., 2@3c. To-day the market declined 3c more—closing at 64½@65c for No. 2 Spring; 97@98c for No. 1 Red; and 86@87c for No. 2 Red.

The Corn market has been particularly depressed—the active export demand of the two previous weeks having ceased. The sales have averaged about 40,000 bushels daily. Canal Corn has declined from 59½c@60c at the opening of the week to 52@53c at the close; No. 1 57½c at the opening, to 50@52c at the close; No. 2, 55½c at the opening to 48@50c at the close.

The Barley market, under advices from the East, has been more active, and an advance of 5@6c has been gained during the week. To-day the demand for No. 2 was urgent, and about 4,000 bushels were sold at a range of 49@55c in store. The demand for No. 1 Barley, though good, is not as active. Sales were made to-day at 81c in store—an advance of 5c on the prices a week ago.

The Oats market has been dull. About 25,000 bushels Oats have been shipped during the week to St. Louis. The sales of old Oats during the week have been made at 40@41c in store; and of new Oats, 33@35c. The quality of the new crop does not improve.

The Provision market is at a stand. Nearly all the old stock of Mess Pork has been sent forward, and there have been no sales for future delivery since our last review. Buyers do not offer over $14 for delivery in the winter, and packers ask $15. Lard is quiet—with sales of small lots for present delivery at 10@10¼c. Sellers ask 9½c for future delivery; but buyers do not offer over 9c. The packers along the Mississippi and Illinois rivers are making preparations for a large business during the ensuing season.

The Cattle market during the past two weeks has been gradually on the decline. To-day, however, it showed some symptoms of revival, on account of the packers (including one from the East) buying more freely. Good Cattle are in active demand.

There seems to be a great difference of opinion in relation to the coming Hog crop. Some think prices will rule low, and others that they will be high. Buyers have been out along the Mississippi making contracts at $4@4.25 net; the farmers generally are now holding off for higher figures.

The rates of Freights advance very slowly There has been a good demand for vessels to Oswego, and these have been receiving 8c for wheat; but Buffalo vessels have been abundant, and till to-day, the rates have been 3c for corn, and 3½@4c for wheat. To-day, however, 3½c has been received in several instances for corn.

THE WHEAT CROP OF 1858.

The U. S. *Economist*, after giving a series of tables of exports, etc., comes to the following conclusion relative to the Wheat crop of the present year:

> The crop now being harvested is represented as damaged, but the breadth of land sowed must have been very large, as compared with 1850, since we find that the export of 30,000,000 bushels annually does not sustain prices. The crop of 1854 was, as we have seen, exhausted by the export of 6,821,584 bushels at famine prices. There could have been no old grain then left in the country. Since then we have had three crops—'55, '56, '57. Of these crops 82,049,000 bushels have been exported, and prices now are lower than for many years before at this season, but the quantity of old grain in the country is said to be large, owing to the refusal of farmers to sell at the low rates which followed the panic. To allow 16,000,000 bushels on hand, the crop of 1857 should have been 160,000,000 bush. The crop of 1858 may then stand thus, allowing it to be 20,000,000 bush. short of 1857:

Grain on hand—estimated	bush.	16,000,000
Crop of 1858 coming in		140,000,000
Supply		156,000,000
Seed	bush. 15,000,000	
Consumption	105,000,000	120,000,000
Excess for export	bush.	36,000,000

> The consumption is taken at 3½ bush. for 30 millions of people. This quantity for export is larger than was ever needed, and crops are now good abroad, with little chance of a large demand.

Chicago Daily Live Stock Market.

TUESDAY, EVENING, Oct. 5.

The receipts to-day at Sherman's Cattle Yards were: 2 cars native cattle, and 6 car loads of Texas beeves—the latter to be put to graze on the prairies; 7 car loads of hogs, and one car load of sheep.

The market has been dull and drooping for the past two weeks; but yesterday and to-day there was an Eastern purchaser on the ground buying extensively, which has for the time, given a better tone to business. Our quotations show a decline in beef cattle, while the price of hogs is sustained. Good sheep wanted.

BEEF CATTLE—Mr. Felt of New York, bought several lots yesterday, of fair weight,—there were a number of other sales, and the prices ranged from $1.75@2.37½; about 200 head passing off at these and the intermediate figures. Mr. Felt made seven purchases to-day at the quotations, including two prime lots, as the market goes at present; the prices paid to-day varied from $1,50@2.25. There are about 400 head left over.

HOGS—Not many sales to-day, but those quoted include some good ones; about 170 head sold yesterday in three lots, bringing $4,20@4.37½c. The demand for choice ones continues, notwithstanding the warm weather. There were 200 left over this afternoon.

SHEEP—The demand for good ones is continuous; all answering that description going off at once. We have no sales to record, and there are 400 remaining on hand.

The table below gives the principal sales, omitting a few retail transactions:

Disasters.

We clip the following from the Buffalo Express of Monday:

☞ The prop. Illinois and schooner Roscoe came in collision Saturday night, off Gravelly Bay. The latter vessel was bound up light. The Illinois was bound down. The Roscoe had her bowsprit and all of her head-gear carried away, and her bows badly stove. The Illinois had her stem wrenched off. The Roscoe returned to port.

☞ The wind blew a gale from the southwest yesterday, and vessels in coming in, sustained some damage by collisions. The schooner S. G. Andrews, in coming in under full sail, while coming round the bend of the Creek, in shoal water, would not answer her helm, and ran afoul of the schooner Cairo, tearing off her plankshire. She next struck the schooner Mary Booth in the stern, tearing away her davits and taffrail.

The schooner Buckingham in coming up the Creek, ran into the schooner Cairo, carrying away her jib-boom. The schooner Ellington was run into by some vessel, and had her bows badly stove. The schooner N. P. Goodell, also had her jib-boom carried away.

☞ The schooners Courtright and St. Paul, the former bound from Erie to Chicago with a cargo of coal, and the latter for Oswego with a cargo of wheat, came in collision on Lake Michigan, on the morning of the 1st inst. The St. Paul was badly damaged, having her foremast carried away, and all of her head-gear. The Courtright was considerably damaged.
